

## Lanier Freeman

### Supply List

- Pencils
- Red Pen
- Notebook (100+ sheets)
- 3 ring binder (1" + thickness)

For Algebra I, a standard scientific calculator will work (TI30 or comparable model)

For Algebra II, you will need a graphing calculator. The TI83 and TI84 are older options, while the TI84 Plus CE and TI Nspire CX are newer options with additional capabilities. Please do NOT get the Nspire CX CAS or any calculator with a computer algebra system, as you will not always be allowed to use it.
