Date: July 1, 2018
Subject: Compliance with AHERA Management Plan Annual Notification Requirements

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA), which required the Environmental Protection Agency (EPA) to promulgate the final rules for asbestos management by October 17, 1987. The final rules required that all public and private schools develop a new Asbestos Management Plan and submit it to the Governor, or his designee, by May 9, 1989.

We are pleased to inform you that the Clinton City Schools have complied with all aspects of this regulation.

The Management Plan, which includes previous asbestos abatement projects, six months surveillance reports, the location and condition of the remaining asbestos containing materials in our building, as well as the response action chosen for each is available for your review at the following location:

This written annual notification is required by the new AHERA regulation. If you have any questions, don't hesitate to contact the Asbestos Coordinator for Clinton City Schools.

Mr. Scott Rhea
Asbestos Coordinator
