Assistant Principal
Dr. Tonya Wallace

Our mission is to ensure a viable 21st Century workforce for Houston County.

Programs

- Academics
- *Aircraft Structural
- Audio, Video and Film Technology
- *Automobile Maintenance
- *Barbering
- *Cosmetology
- *Culinary Arts
- *Emergency Medical Responder
- *Engineering & Technology
- Heating, Ventilation, Air Conditioning and Refrigeration (HVAC)
- *Industrial Maintenance
- *Information Technology
- *Law Enforcement Services
- *Patient Care
- Sports Medicine/Allied Health
- Teaching as a Profession
- *Welding

**Dual-enrollment program with Central Georgia Technical College*

Certifications

- Automotive Service Excellence
- Certified Nursing Assistant
- Culinary Arts Junior Culinarian
- Federal Emergency Management Agency ServSafe
- Certified Emergency Medical Responder

Technical Certificates

- Advanced Comp TIA A+ Certified Technician Prep
- Automotive Maintenance & Light Repair
- Barbering Assistant
- Basic Shielded Metal Arc Welder
- Crime Scene Fundamentals
- Emergency Responder
- Engineering Technology Essentials
- Gas Metal Arc Welder & Gas Tungsten Arc Welder
- Industrial Fluid Power Technician
- Nurse Aide Essentials
- Prep Cook
- Shampoo Technician

Aircraft Structural

Aircraft Structural prepares students for careers in aircraft structure, manufacturing, and repair. The program emphasizes a combination of aircraft structural theory and practical application necessary for successful employment. Program graduates are eligible to become aircraft structural specialists.

10th - 12th

Audio, Video, and Film Technology

9th - 12th

The AVF pathway prepares students for employment or entry into a post-secondary education program in the audio and video technology career field. Students will learn topics such as: terminology, safety, basic equipment, script writing, production teams, production and programming, lighting, recording and editing, studio production, and professional ethics.

Automobile Maintenance

This program allows students to be eligible to receive the Automotive Service Excellence G1 Certification. Graduates are prepared for employment in automotive dealerships, repair facilities, lube shops, undercar specialty shops and self employment.

10th - 12th

Barbering

10th - 12th

The Barbering program emphasizes specialized training in safety, sanitation, hair treatments and manipulations, haircutting techniques, shaving, skin care, reception, sales, and management. Students are eligible for the barbering technical certificate of credit and may continue course work after high school graduation to complete the barbering diploma at CGTC.

Cosmetology

Cosmetology prepares students for personal care service careers through full lab experiences in theory, hair care and treatment, nail care, hair cutting, chemical texture services, styling and salon management. Students who complete the two year program earn 21 credit hours toward a Cosmetology Diploma.

10th - 12th

Culinary arts

9th - 12th

Culinary Arts teaches students the "art" of cooking and is for those who plan to work in the culinary field. Students gain knowledge in safety and sanitation, food preparation, cost control, banquet and catering.

Engineering & Technology

Engineering & Technology combine hands-on application and problem solving projects using the latest interactive educational tools. Students learn about technological systems and their impact on society; they also gain valuable teamwork skills.

10th - 12th

Healthcare Science

Healthcare Science prepares students for a smooth transition into post-secondary education or entry-level positions in the civilian or military healthcare workforce. Healthcare science provides challenging academic courses, relevant on-the-job experience, and specialized technical skills to prepare students.

9th - 12th

Heating, Ventilation, Air Conditioning and Refrigeration (HVAC)

9th - 12th

The Air Conditioning Technology programs prepare students for careers in the air condition industry. Students develop academic, occupational and professional knowledge and skills required for job acquisition, retention and advancement.

Industrial Maintenance

Industrial Maintenance students gain hands-on, practical experience in welding, hydraulics, electrical, mechanical fundamentals and machine alignment. Students build skills in electronics, computerized equipment maintenance and preventative/predictive maintenance. The Introduction to Motor Controls technical certificate provides hands-on experience for students. This embedded certificate allows for a seamless pathway for students interested in the Industrial Systems Technology profession.

10th - 12th

Information Technology

10th - 12th

Information Technology graduates are prepared for a variety of careers to include network administrator, computer programmer, Office specialist, PC repair technician, network installation, and computer help desk assistant.

Law Enforcement Services

Law Enforcement Services emphasizes the role of the police, judicial and correctional systems. Students interested in public safety careers will participate in crime scene investigations, mock trials and criminal

10th - 12th

Teaching as a Profession

9th - 12th

Teaching as a Profession is designed for a career in the field of education. The practicum offers students an actual classroom experience. Articulated college credit is offered for those who complete this pathway & advancement.

Welding

In the Welding dual-enrollment program, students earn both high school and college credit. Program learning opportunities develop academic, technical, professional knowledge and skills required for job acquisition, retention and advancement. Program completers earn Technical Certificates and have the qualifications of a welding and joining technician, and are prepared to take welding qualification tests for employment.

10th - 12th
