

2019-2020 Reteach and Retest Guidelines

In lieu of students retesting on all major grades in which they did not receive a passing score, we recommend the following guidelines for the 2019-2020 school year:

Reteaching is an essential part of instruction that promotes student learning. After necessary reteaching has been provided, students are allowed one retest per subject on the first assessment where a student fails a major grade. The higher of the two grades will be recorded in the gradebook. Reteaching and retesting should occur within a reasonable time frame.

Teachers are empowered to retest at their discretion beyond once per quarter when they feel circumstances warrant such an opportunity. Student accountability is an important component of reteaching and retesting procedures. Teachers and school leaders are encouraged to establish criteria that students must meet to earn the opportunity to retest a major grade.

If the class average on any major assessment is 65 or below, then reteaching and retesting must occur with the entire class promptly. The teacher will record the higher of the two grades in the gradebook.

***These guidelines are not applicable to weighted courses.
