

April 13-17, 2020

For this week's digital learning, you have 2 assignments. Both are due by Saturday, April 18th.

Part 1: Practice for a minimum of 30 minutes on scales and sight reading. Write a paragraph detailing which scales you worked on and any challenges you faced in your sight reading. You may use the scale exercises and sight reading from your Habits books (concert band only) OR the GMEA scale sheet and Sight Reading Factory.

Part 2: See the document entitled "How It's Made Videos" for links to "How It's Made" style videos for your instrument. Pick one of the videos to watch and write or record a summary of the video. If you choose a written response, it must be at least one paragraph (6 sentences). If you choose a video response, it must be at least 1 minute in length.

All assignments should be submitted via Google Classroom or email.

Have a great week!
