Federal Funds

Each year when it is believed that the school district is eligible for federal assistance under the provisions of Public Laws, the Superintendent may authorize application for said assistance, so long as acceptance of the funds does not include conditions contrary to Board policy. The Superintendent will seek Board of Education approval when required by the grantor.

Expenditures and accounting for such funds are to be in accordance with procedures established for the Board's regular operating budget with any applicable law, and any stipulation identified in the grant.
