

State of Connecticut Department of Education

Health Assessment Record

To Parent or Guardian:

In order to provide the best educational experience, school personnel must understand your child's health needs. This form requests information from you (Part I) which will also be helpful to the health care provider when he or she completes the medical evaluation (Part II).

State law requires complete primary immunizations and a health assessment by a legally qualified practitioner of medicine, an advanced practice registered nurse or registered nurse, licensed pursuant to chapter 378, a physi-

cian assistant, licensed pursuant to chapter 370, a school medical advisor, or a legally qualified practitioner of medicine, an advanced practice registered nurse or a physician assistant stationed at any military base prior to school entrance in Connecticut (C.G.S. Secs. 10-204a and 10-206). An immunization update and additional health assessments are required in the 6th or 7th grade and in the 9th or 10th grade. Specific grade level will be determined by the local board of education. This form may also be used for health assessments required every year for students participating on sports teams.

Please print

Student Name (Last, First, Middle)	Birth Date	<input type="checkbox"/> Male <input type="checkbox"/> Female
Address (Street, Town and ZIP code)		
Parent/Guardian Name (Last, First, Middle)	Home Phone	Cell Phone

Immunization Requirements for Newly Enrolled Students at Connecticut Schools

KINDERGARTEN

- DTaP: At least 4 doses. The last dose must be given on or after 4th birthday.
- Polio: At least 3 doses. The last dose must be given on or after 4th birthday.
- MMR: 2 doses given at least 28 days apart – 1st dose on or after the 1st birthday.
- Hib: 1 dose on or after 1st birthday (Children 5 years and older do not need proof of Hib vaccination).
- Pneumococcal: 1 dose on or after 1st birthday (born 1/1/2007 or later and less than 5 years old).
- Hep A: 2 doses given six months apart-1st dose on or after 1st birthday.
- Hep B: 3 doses-the last dose on or after 24 weeks of age.
- Varicella: For students enrolled before August 1, 2011, 1 dose given on or after 1st birthday; for students enrolled on or after August 1, 2011 2 doses given 3 months apart – 1st dose on or after 1st birthday or verification of disease*.

GRADES 1-6

- DTaP/Td/Tdap: At least 4 doses. The last dose must be given on or after 4th birthday; students who start the series at age 7 or older only need a total of 3 doses of tetanus-diphtheria containing vaccine.

- Polio: At least 3 doses. The last dose must be given on or after 4th birthday.
- MMR: 2 doses given at least 28 days apart-1st dose on or after the 1st birthday.
- Hep B: 3 doses – the last dose on or after 24 weeks of age.
- Varicella: 1 dose on or after the 1st birthday or verification of disease*.

GRADE 7

- Tdap/Td: 1 dose of Tdap for students 11 yrs. or older enrolled in 7th grade who completed their primary DTaP series; For those students who start the series at age 7 or older a total of 3 doses of tetanus-diphtheria containing vaccines are needed, one of which **must** be Tdap.
- Polio: At least 3 doses. The last dose must be given on or after 4th birthday.
- MMR: 2 doses given at least 28 days apart – 1st dose on or after the 1st birthday.
- Meningococcal: one dose for students enrolled in 7th grade.
- Hep B: 3 doses-the last dose on or after 24 weeks of age.
- Varicella: 2 doses given 3 months apart – 1st dose on or after 1st birthday or verification of disease*.

GRADES 8-12

- Td: At least 3 doses. Students who start the series at age 7 or older only need a total of 3 doses of tetanus-diphtheria containing vaccine one of which should be Tdap.
- Polio: At least 3 doses. The last dose must be given on or after 4th birthday.
- MMR: 2 doses given at least 28 days apart-1st dose on or after the 1st birthday.
- Hep B: 3 doses-the last dose on or after 24 weeks of age.
- Varicella: For students <13 years of age, 1 dose given on or after the 1st birthday. For students 13 years of age or older, 2 doses given at least 4 weeks apart or verification of disease*.

* **Verification of disease:** Confirmation in writing by a MD, PA, or APRN that the child has a previous history of disease, based on family or medical history.

Note: The Commissioner of Public Health may issue a temporary waiver to the schedule for active immunization for any vaccine if the National Centers for Disease Control and Prevention recognizes a nation-wide shortage of supply for such vaccine.

Other Concerns (i.e. developmental, speech):

**New Milford Public Schools
Tuberculosis (TB) Risk Assessment Questionnaire**

Name _____ Grade _____

Parents of students new to New Milford Public Schools are required to complete TB Risk Assessment Questionnaire prior to school entry. Parents of students in Kindergarten, Grade 6 and Grade 9 should fill out TB Risk Assessment Questionnaire to be reviewed by student's Physician when student is seen for mandated physical exam.

Please answer the following questions yes or no:

1. **Was your child born outside the US?** _____
If born in any of the countries in the attached list, a TST* or IGRA* should be performed. (Note IGRA's are not recommended for children <5 years old)

2. **Has your child traveled outside the US?** _____
If the child traveled to any of the listed countries, stayed for > 1 week and interacted with the local population, including local family or friends, then a TST or IGRA should be performed. For most children, testing, after evaluation for possible signs and symptoms of TB disease or exposure to a person with contagious pulmonary TB, can take place 8-10 weeks after return to the United States.

3. **Has your child been exposed to anyone with TB disease?** _____
If yes, determine whether the person had TB disease or latent TB infection, when the exposure occurred and what the nature of the contact was. If it is confirmed that the person had known or suspected TB disease, a TST or IGRA should be performed.

4. **Does your child have close contact with someone with a positive TB skin test?** _____
If yes, see previous question for follow-up information needed

5. **Does your child live with anyone who has been in jail or prison, a shelter, who injects illegal drugs, or has HIV?** _____
If yes, then a TST or IGRA should be performed.

6. **Has your child eaten unpasteurized cheese from Mexico or Central America since their last TST or IGRA?** _____
If yes, a TST or IGRA should be performed.

Parent Signature _____ Date _____

*TST- Tuberculin Skin Test

*IGRA-Interferon-gamma release assay (blood test)

Any student who is identified as having a positive reaction to TST or IGRA shall present a letter from the physician stating that a chest x-ray has been administered and student is free from active Tuberculosis prior to school entry.

TB Risk Assessment Questionnaire submitted to school nurse.
