

The Evaline School District #36 complies with all federal rules and regulations and does not discriminate on the basis of race, creed, religion, age, veteran or military status, color, national origin, sex, sexual orientation including gender expression or identity, or use of a trained guide dog or service animal by a person with a disability. This holds true for all students who are interested in participating in educational programs and/or extracurricular school activities and provides equal access to Boy Scouts and other designated youth groups. Inquiries regarding compliance and/or grievance procedures may be directed to, the school district's Title IX/RW 28A.85 Officer and/or Section 504/ADA Coordinator, Kyle MacDonald at 111 Schoolhouse Rd Winlock, WA 98596, 360-785-3460 kmacdonald@evalinesd.k12.wa.us

BELL Spring Photos, Thursday, APRIL 29th

We will be having BELL Studios here to take spring pictures in the morning on **Thursday, April 29th**. Due to our Covid protocols we can not do our normal all school group photo, but thankfully, Bell Studios is going to create a composite page of each classroom with each student's individual photo and name. Composites are not for sale, however **parents and guardians can get a FREE composite of their student's class with ANY purchase!** Order forms have been sent out in your newsletter envelopes. Please fill them out and include payment and have your student bring it with them to picture day, OR you can order your pictures and pay all online at: <https://BellStudios.simplephoto.com/prepay/42849952?code=1205f> all. Spring pictures are taken on a green screen with multiple backgrounds to choose from, so we ask that your student does not wear the color green for their picture.

Distance Learners can come to the school any time between 8:00am-9:00am on pictures day to get their picture taken.

Evaline Highly Capable Annual Notice:

WAC 392-170 requires that all school districts identify and serve their most highly capable kindergarten through grade 12 students and provide them a continuum of services.

WAC 392-170-035 defines highly capable students as "students who perform or show potential for performing at significantly advanced academic levels when compared with others of their age, experiences, or environments. Outstanding abilities are seen within students' general intellectual aptitudes, specific academic abilities, and/or creative productivities within a specific domain. These students are present not only in the general populace, but are present within all protected classes according to chapters 28A.640 and 28A.642 RCW."

In accordance with WAC 392-170-060, WAC 392-170-075, and WAC 392-170-070 the Evaline School District uses multiple criteria, universal test measures, and a Multi-Disciplinary Selection Committee (MSC) to identify students who fall generally in the top 10 percentiles for cognitive ability.

Also, in accordance with WAC 392-170-045, Evaline has a referral process by which parents and teachers can provide further insight to the aptitudes and abilities of a child who they wish to recommend for highly capable services. **Nomination forms can be found in our school office and can be picked up at the office or can be e-mailed or mailed upon request. The open nomination window is from April 26, 2021 to May 21, 2021.**

All students who attend Evaline in grades kindergarten through sixth will have the opportunity to be universally screened for highly capable services using multiple criteria and results from the Cognitive Ability Test (CogAT). Students who test in the top 10th percentile will be automatically referred to the MSC to determine whether they qualify for highly capable services.

In accordance with WAC 392-170-076 the Evaline School District has written procedures for appeal.

IMPORTANT DATES:

April:

Thurs. 29: BELL Studio Spring Photos

Fri. 30: Cookie Orders DUE

May:

Mon. 31: Memorial Day-NO SCHOOL

Evaline Flag at Half-Staff:

4/16/21 - 4/20/21, in honor of the victims who tragically lost their lives on April 15, 2021, in Indianapolis, Indiana.

4/20/21 - close of business or sunset on the day of interment, in honor and remembrance of former Vice President Walter Mondale.

WEEKLY LUNCH MENU

Mon: croissant roll lunch meat sandwich,
Tues: peanut butter & jelly sandwich,
Wed: tortilla wraps, **Thurs:** bagels,
Fri: tuna fish or cheese sandwich

Booster Club Cookie Dough Fundraiser:

April 12th - April 30th

Keep selling that cookie dough! This fundraiser will help to earn money to support the Evaline Booster Club. There are 8 yummy flavors and the tubs are only \$10 each. **The Booster Club helps provide many fun activities throughout the year which can**

include: holiday parties and activities, swimming lessons, lake day BBQ, graduation gifts for Kinders and 6th graders, and much more. The fundraiser will run from April 12th - April 30th.

Order forms and money need to be turned in to the school office by April 30th. The cookie dough orders will be delivered mid May.

Thank you for supporting our Booster Club!

For questions regarding the fundraiser please contact the Booster Club through their Facebook page.

Earth Day/School Garden

This year Evaline is starting a school garden! Students have been included in every step of the gardening process and are very excited to see their plants produce fruits and vegetables that they can enjoy this summer and fall.

A BIG THANK YOU to the donors that have made this project possible for our students;

- *Cardinal Glass and employees for supplies, tools and plants
- *Evaline Boosters for materials and help
- *Mr. Stanton for milling the lumber for the raised beds.
- *Mr. Kirkpatrick for helping mill, build and transport the beds.
- *KBH Construction for the huge pile of soil

Fun Fact:

The raised beds were built from danger trees that had to be taken down from the school property last summer. Mr. Stanton, our retired bus driver, milled the logs at his personal saw mill with the help of Mr. Kirkpatrick, who also built the raised beds from the milled lumber. **Reduce Reuse Recycle!!**

EARTHDAY: This Thursday students celebrated Earth Day by, filling the beds with soil, building fences, and planting starts for the garden. Make sure you drive by and take a look at all the progress that has been made.

MRS. YOUNG
KINDERGARTEN AND 1ST GRADE
(360) 785-3460 - Voicemail Ext. 1002

Hello families,

This week was fun as the sun shone! We enjoyed our recesses with lots of nice weather.

The Kindergarten are working on their sentences and what punctuation to use. They are about to learn about some long vowel sounds too! In Math we are working with touch math and how to add and subtract. This will help them all the way through their schooling careers. We will practice more of it next year too!

First grade is working hard on their units in reading and making sure to use full sentences while writing their opinion and telling me why they have their opinion. They are about to finish up their last unit in math next week! Because of this, we are going to practice the skill of double digit addition and subtraction using touch math. This is similar to what the kindergarteners are doing but with larger numbers.

I am so proud of how hard my students are working this spring! They are getting things done early which makes more time to do other fun activities such as fun videos and of course some go noodle time!

Mrs. Young

Super Second Grade Weekly Update: 4/23/21

Super Second Graders have loved the sunshine the past couple of weeks! They are working and playing hard! Please remember to send in-person learners to school with a clean water bottle each day so they can stay hydrated.

Also, second and third graders will be maintaining the Evaline School Garden for the remainder of the school year! They will need clothes and shoes that can get wet and dirty on Fridays so we can work in our garden space each week. At-home learners should have a packet of Spring STEM activities and Earth Day activities to work through on these days so they too can enjoy hands-on earth space and life science.

Keep using those daily task sheets, everyone! We will be learning about rocks and minerals next week! We will also be starting our last math unit for the year: Chapter 11-Geometry and Fraction Concepts!

Thank you for all of your help and support! Have a lovely weekend!

MRS. TURNQUIST
3RD GRADE
(360) 785-3460 - Voicemail Ext. 1003

Hello Families,

This week was all about learning new things, we started a new unit in both math and ELA as well as starting a new science project. Learning something new can sometimes be difficult. In class we talk about how it is okay to make mistakes as they only help us to learn something in the long run. One student that really embraced this this week was Xander. Xander embraced new things both in and out of the classroom. He has been working hard to be able to go all the way across the monkey bars all on his own. No matter how many times he fell or how many days he practiced he just kept getting up and trying again. Hearing Xander's positive self talk to himself as he learned something new was just great. I am pleased to announce that Xander's hard work has paid off and he has now mastered the swinging monkey bars! Way to stick with it Xander, you can do hard things!

For Earth Day this week we got the opportunity to start our school garden. Students got to help with many things including, filling boxes with dirt, building a fence, planting seeds, and more. Please take the time this weekend to drive by the school and take a look at the students' hard work on this project. As the weather continues to get nicer you will start to see this area fill up with fruits, vegetables, and flowers. As a class we will be using this garden for many things both in and out of science. Here in a few weeks students will be learning about area and perimeter in their math curriculum and students will have the opportunity to measure different parts of the garden to find the area and perimeter. Most Fridays students will be working in the garden and getting a little dirty, please make sure students wear clothes on Fridays that are okay to get dirty.

Have a great weekend!

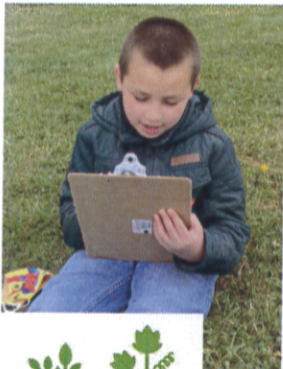

MRS. DUREN
4TH GRADE
(360) 785-3460 - Voicemail Ext. 1004

Happy Earth Day Week Fabulous 4th graders!!!

This week in math we continued our application of fractions within word problems as well as in more complicated equations. In ELA we placed extra focus on learning about what a biography was, and beginning to write one about someone we admire. We have also been making great progress in our cursive writing practice in Handwriting, and in Health we looked at ways we can practice self care and how to support positive self esteem in ourselves and others with kind words, thoughts, and actions. We have also been discussing as a class, use of our current Read Aloud book, the importance of making the "right" or honorable decisions, and having healthy boundaries and rules. In Science, our focus has been both on earthquakes, as well as on Earth Day related topics and activities. We have been able to incorporate both social studies and art in our Science and Health lessons this week, which really brought that knowledge to life for many of our students.

A few requests for our 4th grade parents. First, please continue to remind our fabulous fourth graders to review their checklists daily and complete all assigned tasks, whether they are online or in paper form. I know with the good weather we are starting to have they may be tempted to put off doing their homework, but when it isn't done by the next morning they end up feeling behind, or having to miss recess to catch up which we would like to prevent. Secondly, if a student is needing to be absent from live learning or switching to distance learning for any period of time, please remember to arrange for pick up of their assignments which are put out front of the school daily at 2pm, and we will also arrange extra support on zoom with Mrs. Fletcher or another staff member as needed to teach or review new or challenging concepts. Lastly, please remember to consider supporting the cookie dough fundraiser being sponsored by the booster club this month. This fundraiser helps cover costs associated with various school activities that the booster club supports throughout the school year.

Happy Earth Day! Mrs. Duren

MR. BURLINGAME
5TH AND 6TH GRADE
(360) 785-3460 - Voicemail Ext. 1001

Hello Parents and Students,

This week we have been hard at work finishing up our math chapters in both classes and taking chapter math tests. 5th grade worked on multiplying fractions where one factor was a mixed number or a fraction and 6th grade learned about solving algebraic equations and finding solutions to inequalities. Their next chapters will center on fraction division for the 5th grade and understanding the relationship between variables in 6th grade.

ELA saw us getting close to finishing the Renaissance unit in 5th grade and each student will be completing the unit next week with a short biography of their choosing about Brunelleschi, Da Vinci, or Michelangelo. 6th graders have completed the unit on Bud, Not Buddy and are now starting to organize information for a research paper on their own "rules to live by".

The class is continuing their study on volcanoes with a look at how lava deep inside the mountain attributes the shape of the mountain as well as what kind of rock is formed by eruptions. They also figured out why the lava type is a major cause in the type of eruption that a volcano may have.

5th graders have now moved into a lengthy unit on the United States government beginning with the Declaration of Independence and the Constitution. They will study the three branches of government, their roles, and their checks and balances. We will finish up with a look at local government as well. 6th graders have completed their unit on the Roman Empire and are now looking at the power, social, and knowledge vacuum created by the retreat of the empire as Europe enters the medieval period.

This year is quickly coming to an end and before we know it we'll be looking at summer vacation. There is still a lot of work to be done and students in my class are working hard to complete it. I am proud of the work that they've done and the growth they've shown this year. I look forward to finishing this year strong with several more fun units for students to complete before they are gone for the summer.

Have a great weekend,
Mr. B
