

# FREE INTERNET ACCESS TO HELP WITH DISTANCE LEARNING

All of us here at Carroll County Schools are dedicated to supporting our students as we continue to learn and grow in this unprecedented time. Our commitment to providing a premier learning experience for all of our students will continue through our Distance/Digital Learning Plan.

We realize that access to digital content is difficult for some of our students, and so we want to share these FREE INTERNET opportunities. We hope that, by sharing these, more of our scholars will have access to the tools they need to continue the premier education that we here at Carroll County Schools are committed to providing.
