

September 23<sup>rd</sup>, 2020

Dear Parents and Guardians,

We have recently received information about one confirmed case of Coronavirus Disease 2019 (COVID-19) in a student or a staff person who attends P.M. at the Huron Area Technical Center. We do not believe any students were exposed through this individual.

Cleaning and disinfecting of the exposed location has been completed. If your child was in close contact with the confirmed individual, you would have been contacted by the Huron County Health Department. Please take their call and follow the recommendations they provide.

All confirmed cases should be isolated and close contacts quarantined for 14 days from last exposure in order to prevent illness in new persons. "Close contact" means being a household member, intimate contact, or caregiver of a confirmed or suspected COVID-19 case; within 6 feet of the confirmed or suspected COVID-19 case for more than 15 minutes, even if wearing a non-medical face covering; or having unprotected contact with the infected person's body fluids and/or secretions, for example, being coughed or sneezed on.

Please note that all information, including the name(s) of ill persons, shared regarding any Public Health investigation is confidential in order to protect patient privacy.

For additional questions about COVID-19, please visit the Huron County Health Department at <https://www.hchd.us/>

If you have any questions or concerns, please contact me directly at (989) 269- 9284.

Sincerely,

A handwritten signature in red ink, appearing to read "Lane Walker", is written over the word "Sincerely,".

Lane Walker, Director & Principal  
Huron Area Technical Center
