Opportunities await every Viking. It’s time to be in the know! In order for students to have a better way of knowing what’s happening on campus and keeping up with information, Mary G. Montgomery has set up Google Classrooms for each grade level. Through these Google Classrooms, students will see streams of announcements, reminders, grade-level information, and more. Administrators and teachers wanted a more streamlined way to reach you, our MGM Vikings. So, log in, use your code to join your grade level, and let’s get ready for a great 2020-2021 school year!

Skol, Vikings!

If you were a **freshman for the 2019-2020** school year—CLASS OF 2023—use this code to join your Google Classroom: **s4o2pht**

If you were a **sophomore for the 2019-2020** school year—Class of 2022—use this code to join your Google Classroom: **3ddpd7d**

If you were a **junior for the 2019-2020** school year—**Class of 2021**—use this code to join your Google Classroom: **3pldruw**

Please only join YOUR grade level. If you join a grade level other than your own, you will miss the important information sent specifically for your class. This could become a problem when you miss out on important deadlines on opportunities offered only to your grade level. Double check your graduation year, grade level, and code.

There is a Google Classroom App you can download to your phone. One click of the app, and you’ll have access to MGM’s announcements and grade-level specific information you will need. You can access Google Classroom through the Internet, and/or you can download the app. Search for Google Classroom in your app store, and the icon to the right is what you should find. You must log in using your Mary G. Montgomery Mobile County Public School System email address. It will not work with your personal email address.
