

**POLICY TITLE: Building Safety**

**POLICY NO: 904      PAGE 1 of 1**

It is the policy of this school district to provide safe and clean buildings, facilities and grounds for personnel, students, and visitors.

The construction of any new buildings, or remodeling of existing buildings, will be inspected and approved by the local building inspector as complying with all local and state building codes.

All buildings owned by the school district will be inspected annually by the local fire department.

The janitorial staff will survey the school buildings, facilities and grounds at reasonable intervals to determine whether or not a safety concern exists. A log will be kept of the inspections. All minor safety concerns will be corrected, as determined to be necessary to protect students, personnel and visitors from unsafe conditions. Any corrective action taken on minor safety concerns, or any determination to delay corrective action will be documented by the school principal or superintendent.

Personnel, students, and visitors who believe that a building, facility or grounds, or use thereof, is unsafe are encouraged to report such concerns to the building administrator's office. Such reports will be investigated within a reasonable time and corrected as determined to be necessary to protect students, personnel and visitors from unsafe conditions.
