Universal Screener Summary

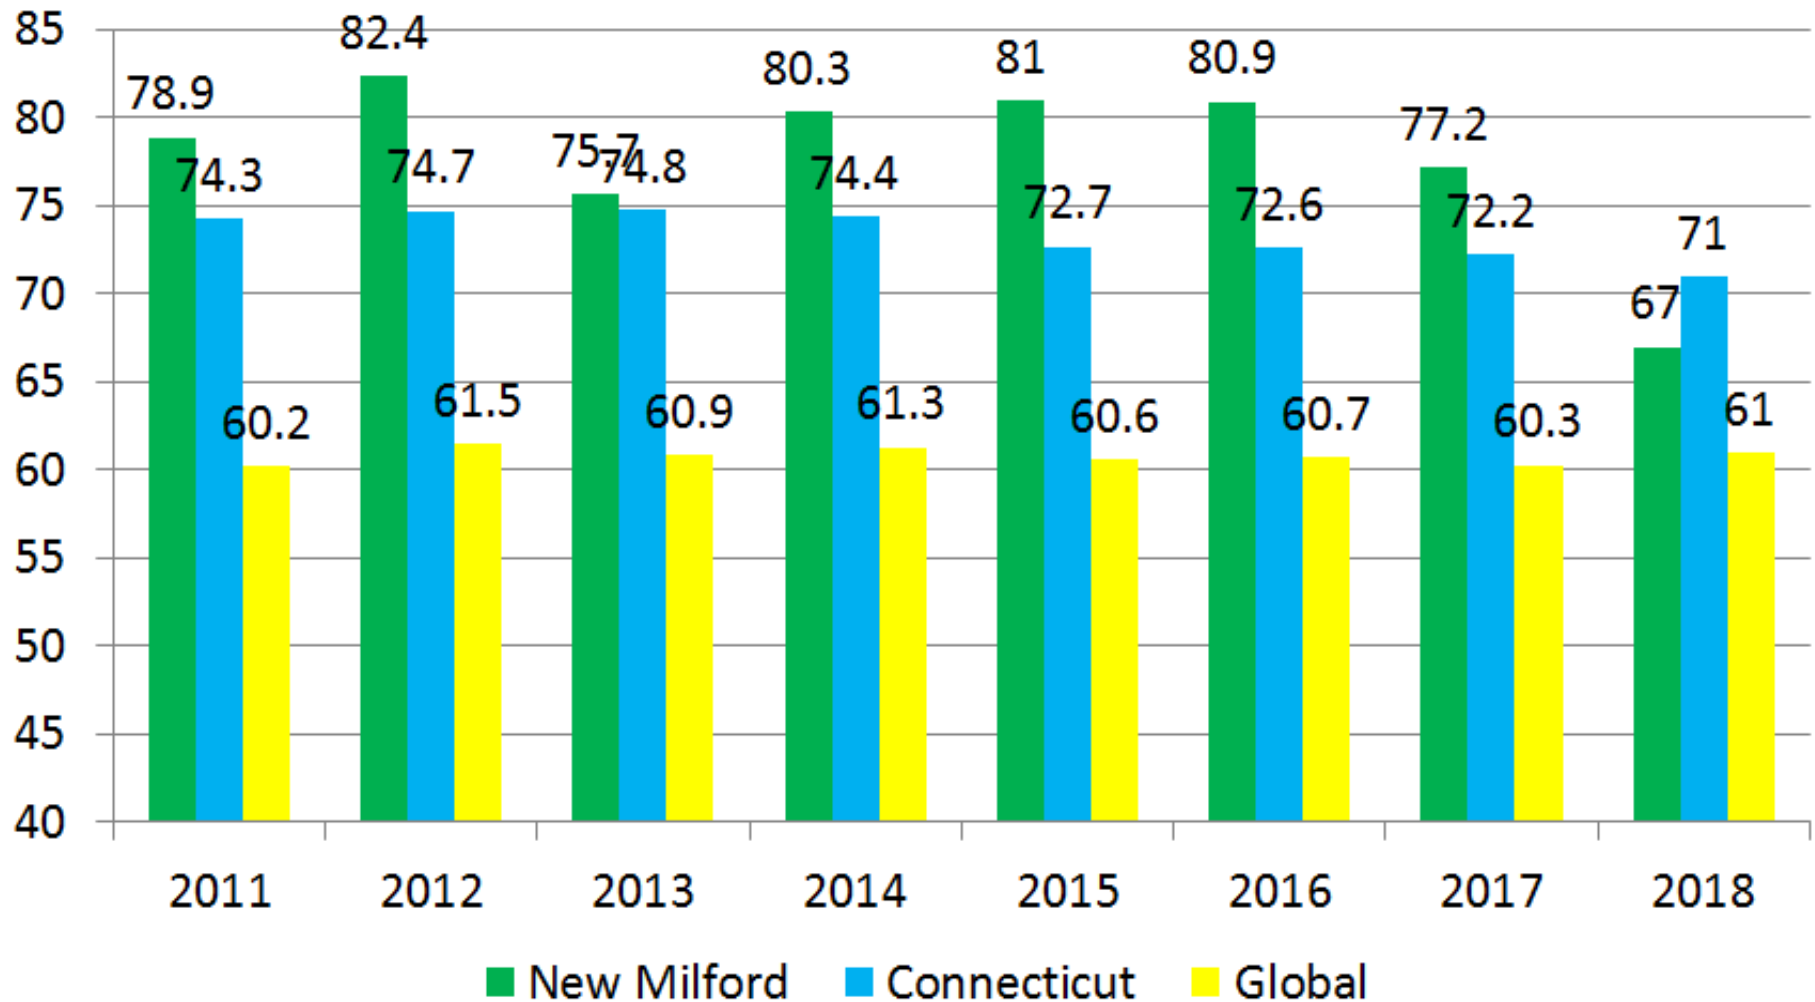

- Can see growth even when students do not make it to the goal threshold
- Data correlates to the weaknesses in curriculum.
- The information supports our known areas for growth and the changes we have instituted.
- Looking at student growth through multiple data points helps teachers better meet the instructional needs of students.
- Allowing district to make predictive models of student success due to correlation of normed percentiles and achievement on other assessments (SBAC, CMT/CAPT, PSAT, SAT).

Graduation Rates

2017 Graduating Class

- 342 students made up the class of 2017
- 6 students transferred out of district
- 11 students went to adult education
- 6 students were retained
- 13 students discontinued schooling
- 306 students graduated high school
- 25 students were coded incorrectly, as still enrolled, but had graduated
- New graduation rate would equal 91.2% students (Litchfield Hills Transition Students don't graduate in 4-6 years and therefore decrease the number of graduates-there were approximately 6 students who transferred to LH in 2017)
- State reported a graduation rate of 82.2%, however with the 25 incorrectly coded students, the new rate of graduation would be 89.5%
