What does Northside High School mean to you?

Northside High School was the launching pad that prepared and catapulted me into an adventurous life. When I think of Northside High School and the fond memories of being a lifetime Northside Eagle, family, genuine care, tradition, against all odds, perseverance and character come to mind. Opportunity and excellence. ...These qualities remind me that I will always have the support of a cadre of former graduates and faculty members who will forever be in my corner and in my heart. It’s great to be a Northside Eagle! Once an Eagle, ALWAYS an Eagle!
