# Houston Virtual Guide: Course Grades in Odysseyware

There are 2 different scores in Odysseyware: **Score to Date** and **Current Score**

Houston County will be using **Score to Date** on progress reports

**Current Score:** Based on all assignments that have been graded in the course to date. This score does not factor in overdue assignments.

**Score to Date:** Student's Current Score taking into account overdue assignments not attempted by the student which are given a grade of zero (0). This is the true "paced" score

In the example above, the student has an 11.2% as a Score to Date because he is 16 assignments behind and therefore has 16 0% grades added to the 91.3%

## What makes an assignment overdue?

Pacing of the course is based on the terms set by the district. This pacing creates due dates for each assignment within the course. If a student does not complete an assignment on or before the date it is due, it is considered "overdue"

## What score is in the Parent Portal?

Parents will only see the Current Score in the Parent Portal. This grade is only showing what a student has done so far – it does not factor in overdue assignments.

## How can parents see the Score to Date daily?

Parents will need to see the Score to Date via your student's login. Once logged in as the student, navigate to the Courses tab. Here, you'll see every course the student is enrolled to along with the Current Score, Score to Date and amount of overdue assignments.
