

# Parent Literacy and Math Event

---

K-2

Grade	Required Fluency
Kindergarten	<ul style="list-style-type: none"> <li>Add/Subtract within 10</li> <li><i>Fact Fluency within 5</i></li> </ul>
1 <sup>st</sup>	<ul style="list-style-type: none"> <li>Add/Subtract within 20</li> <li><i>Fact Fluency within 10</i></li> </ul>
2 <sup>nd</sup>	<ul style="list-style-type: none"> <li>Add/Subtract within 100</li> <li><i>Fact Fluency within 20</i></li> </ul>
3 <sup>rd</sup>	<ul style="list-style-type: none"> <li>Add/Subtract within 1,000</li> <li>Multiply/Divide within 100</li> <li><i>Multiplication Fact Fluency- all products of two 1-digit numbers</i></li> </ul>
4 <sup>th</sup>	<ul style="list-style-type: none"> <li>Add/Subtract within 1,000,000 (standard algorithm)</li> <li>Multiply up to a 4-digit number by a 1-digit number and two 2-digit numbers</li> <li>Divide up to a 4-digit dividend by a 1-digit divisor</li> </ul>
5 <sup>th</sup>	<ul style="list-style-type: none"> <li>Multiply multi-digit numbers (standard algorithm)</li> <li>Divide by a 2-digit divisor</li> </ul>

# Kindergarten

- Count to 100 by 1s and 10s
- Count forward starting at any given number (instead of having to begin at 1)
- Write numbers 0-20
- Count to answer “how many?” for up to 20 objects

**Our Hundreds Chart**

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

# Kindergarten

- Describe objects and shapes in the environment using terms such as above, below, beside, in front of, behind, next to. (Ex. The dog is beside the doghouse, under the tree.)
- Identify 2-d and 3-d shapes as 2-d or 3-d
- Name shapes

# Kindergarten

- Sort objects into different categories (based on sized, shape, color, etc.) order the categories by count

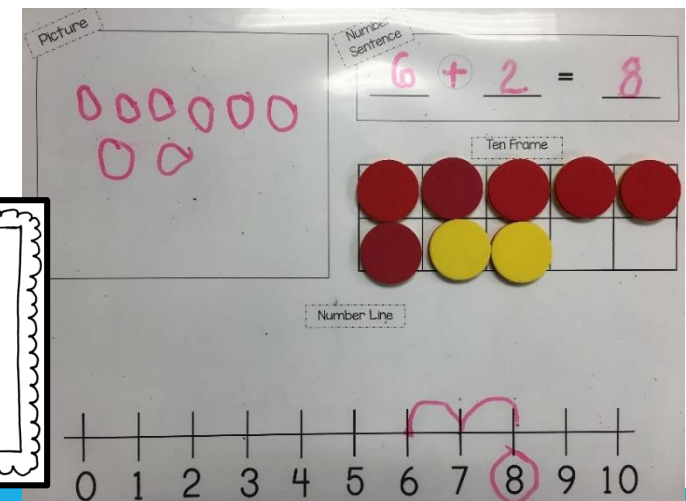

Sorted by color

Sorted by size

- Represent addition and subtraction using objects, fingers, drawings, etc.
- Solve addition and subtraction word problems within 10 using objects or drawings to represent the problem

6 birds were in a tree.  
2 more birds landed in the tree.  
How many birds are in the tree now?

# Kindergarten

- Break apart numbers less than or equal to 10 into pairs in more than one way

- Identify if the number of objects in one group is greater than, less than, or equal to the number of objects in another group

- Compare two numbers 1-10

# First Grade

- Count to 120 starting at any number less than 120
- Read and write numerals 1-120
- Represent a number of objects with a written numeral

# First Grade

- Add and subtract within 20 to solve word problems

3 birds are in a tree. 5 birds are flying. How many birds are there in all? Explain your thinking in numbers, words, or pictures.

There are 9 cookies. Jake eats 3. How many cookies are left? Explain your thinking in words, numbers, or pictures.

10 ducks are in the pond. 2 ducks are yellow. The rest are white. How many ducks are white? Explain your thinking in words, numbers, or pictures.

There were 5 boys at Jake's party. Some more came after basketball practice. Then there were 9. How many boys came to Jake's party after basketball practice?

Mike made 6 snowballs. Some of them melted. Mike now has 4. How many snowballs melted? Explain your thinking in words, numbers, or pictures.

- Addition and subtraction fact fluency within 10 (by end of year)

# First Grade

- Understand how addition and subtraction are related
- Determine if equations are true or false

$$4 + 1 = 2 + 3$$

TRUE

FALSE

- Determine the unknown in an addition or subtraction equation

1. Draw more apples to solve  $4 + ? = 6$ .

$$\boxed{4} + \boxed{2} = \boxed{6}$$

I added 2 apples to the tree.

# Second Grade

- Use addition and subtraction within 100 to solve one- and two-step word problems

**Julie has 35 books. Julie has 10 more books than Lucy. How many books does Lucy have? How many books do they have together?**

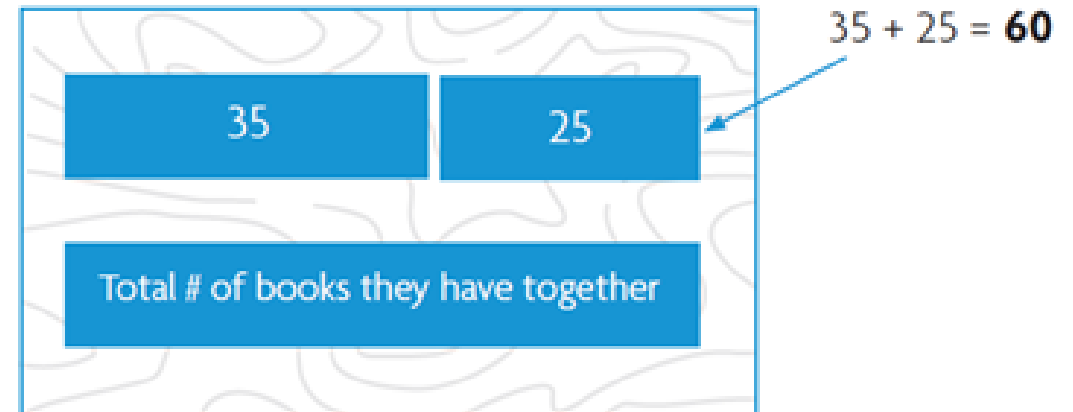

**Step 1:** If Lucy has 10 less books than Julie, students first need to figure out what 10 less than 35 is.

$$35 \text{ books} - 10 \text{ books} = 25 \text{ books}$$

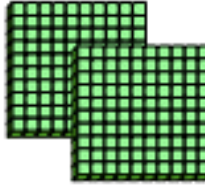

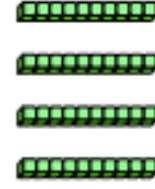

**Step 2:** Students then have to add the number of books Julie has to the number of books Lucy has.

$$35 \text{ books} + 25 \text{ books} = 60 \text{ books}$$

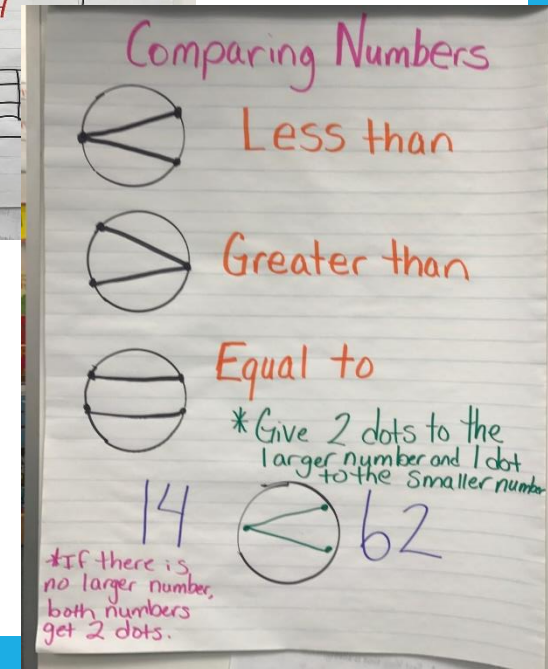

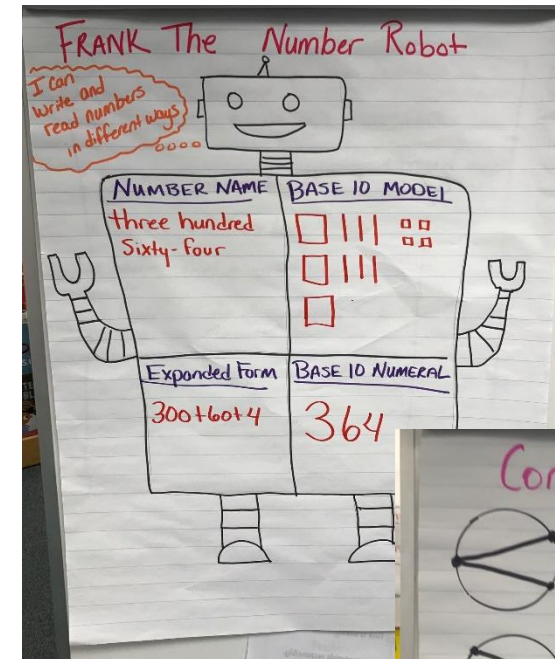

# Second Grade

- Understand what the different digits in a three digit number represent

hundreds	tens	ones
		
2	4	7
200	40	7

- Read and write numbers to 1,000 using numerals, words, and expanded form
- Compare two 3-digit numbers using the symbols  $>$ ,  $<$ ,  $=$

# Second Grade

- Know the values of coins: pennies, nickels, dimes, quarters
- Solve word problems involving money less than \$1

1. Kelly has 5 nickels and 4 pennies. Does she have enough money to buy a pencil that costs 50¢?

yes or no

Kelly has \_\_\_\_\_¢.

- Tell and write time to the nearest 5 minutes, using a.m. and p.m.
- Add and subtract within 100 using *place value strategies*

# Addition Strategies

+ Ways to Add 2-Digit Numbers +

## Strategies

- \* Base Ten Blocks
- \* Decomposing
- \* Place Value

## Base Ten Blocks

$$33 + 12 = 45$$

Uses base ten blocks to represent the numbers. Count them up.

$$33 + 12$$

## Decomposing

$$33 + 12 = 45$$

$$\begin{array}{l} \diagup \quad \diagdown \\ 30 + 3 \quad 10 + 2 \end{array}$$

$$30 + 10 = 40$$

$$3 + 2 = 5$$

$$40 + 5 = 45$$

Uses expanded form to add the numbers

## Place Value

$$33 + 12 = 45$$

Tens	Ones
30	3
+ 10	2
40	5
40 + 5 = 45	

# Addition Strategies

Base Ten Blocks

$$24 + 37 = 61$$

# Addition Strategies

Decomposing

$$54+27= 81$$

$$54+20= 74$$

$$74+7=$$

$$74+6=80$$

$$80+1=81$$

# Subtraction Strategies

+ ways to Subtract 2-Digit Numbers +

## Strategies

- \* Base Ten Blocks
- \* Decomposing
- \* Place Value

## Base Ten Blocks

$$45 - 23 = 22$$

Uses base ten blocks to represent the numbers. Count them up.

$$45 - 23$$

## Decomposing

$$45 - 23 =$$

$$\begin{array}{r} 40 + 5 \\ 20 + 23 \end{array}$$

$$40 - 20 = 20$$

$$5 - 3 = 2$$

$$20 + 2 = 22$$

Uses expanded form to subtract the numbers

## Place Value

$$45 - 23 =$$

Tens	Ones
40	5
20	3
20	2
$20 + 2 = 22$	

# Subtraction Strategies

Base Ten Blocks

$$62 - 48 = 14$$

# Subtraction Strategies

Decomposing

$$43 - 25 = 18$$

$$43 - 20 = 23$$

$$23 - 5 = 18$$
