Required Supplementary Information

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) Required Supplementary Information (RSI) June 30, 2016

The discussion and analysis of the Centennial Board of Cooperative Educational Services' (the "BOCES") financial performance provides an overall review of the BOCES' financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the BOCES' financial performance as a whole. Readers should also review the financial statements, financial statement footnotes, and budgetary comparison schedules to broaden their understanding of the BOCES financial performance.

Financial Highlights

The share of Colorado PERA's net pension liability for Centennial BOCES is \$13,911,128 as of June 30, 2016. When including this long-term pension cost, the total net position changed from -\$7,571,016 at the end of the June 30, 2015 to -\$8,049,575 as of June 30, 2016. This accounting change is a requirement and is reflected on the Statement of Net Position on page 3. During the fiscal year, CBOCES completed the ninth year of a ten year lease payoff of the original \$1,824,300 financed for the purposes of financing a new software system.

The BOCES fund balance in the General Fund of \$1,949,227 is an increase of \$5,274 over the prior fiscal year. The fund balance represents 16.7% of the actual expenditures for the fiscal year ended June 30, 2016. There were no significant factors in the fund balance increase and was based on positive project balances in Innovative Education Services during the fiscal year.

Federal Migrant Education revenues account for \$2,268,855 or 19.4% of total governmental revenue for the year ending June 30, 2016. Federal Special Education IDEA Part B revenues account for \$1,381,734 or 11.8% of total governmental revenue. Title I revenues account for \$824,801 or 7.1% of total governmental revenue. Total federal sources of revenues were \$165,266 higher for the year ending June 30, 2016 compared to June 30, 2015.

Using the Basic Financial Statements

The basic financial statements consist of the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can first understand the BOCES as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements – the Statement of Net Position and the Statement of Activities. Both provide long and short-term information about the BOCES' overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the BOCES' operations in more detail. The governmental fund statements tell how general BOCES services were financed in the short term as well as what remains for future spending. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Financial Analysis of the BOCES as a Whole

For the fiscal year ending June 30, 2016, Centennial BOCES had a positive change in the fund balance. The fund balance increased \$5,274 over the prior year. As noted earlier, certain financial statements are significantly impacted by the implementation of GASB 68. At the end of the current fiscal year, total assets of the BOCES decreased to \$5,945,956 compared to \$6,607,532, which is a decrease of \$661,576 from the prior year. The major change is represented by a decrease in cash and investments of \$451,600. The change in liabilities is highlighted by the increase of the net pension liability from PERA in non-current liabilities, representing an increase of \$2,040,648, and a decrease in accounts payable of \$335,442.

Government-Wide Financial Statements

The government-wide statements report information about the BOCES as a whole using accounting methods similar to those used by private businesses. The statements of net position include all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the BOCES' net position and how they have changed. The change in net position is important because it tells the reader that for the BOCES as a whole, the financial position of the BOCES has improved or diminished. The causes of this change may be the result of various factors, some financial, some not. Non-financial factors include facility conditions and required educational programs.

In the Statement of Net Position and the Statement of Activities, the BOCES has one type of activity:

Governmental Activities – The majority of the BOCES' programs and services are reported here including instruction, support services, and interest on long term debt.

A condensed summary of the BOCES' Net Position is as follows:

TABLE 2 – CONDENSED STATEMENT OF ACTIVITIES

The increase in governmental activity total revenues of \$370,205 is attributable to the increase in grant revenues of \$197,069 and in charges for services of \$173,136. The increases in total expenditures of \$532,513 are primarily attributable to the increase in supporting services expenses. The largest decreases in grant funding were in the STEM grant of \$55,331 and Title II, Part A Teacher Training grant of \$20,293. The largest increase in grant funding was in CO School Emergency Management grant of \$117,857.

Reporting the BOCES' Most Significant Fund

The statements of the BOCES' major fund begin on page 3. Fund financial reports provide detailed information about the BOCES' major fund. The Centennial BOCES' major fund is the General Fund.

Governmental Funds

All of the BOCES' activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the BOCES' general government operations and the basic services it provides. Governmental fund information helps one determine whether there

are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements of the Governmental Funds. The BOCES' governmental fund is the General fund. The General Fund accounts for BOCES' entire program related activities.

Fund Financial Statements

As of June 30, 2016, the BOCES' general fund reported a fund balance of \$1,949,227, which is an increase of \$5,274 from the June 30, 2015 balance. The majority of the increase was related to carryover funds used in Innovative Education Services. The general fund has an unassigned fund balance of \$1,429,974 and a committed fund balance of \$519,253.

Capital Assets

As of June 30, 2016, the BOCES had \$3,283,912 invested in a broad range of capital assets, including land, buildings, furniture, and equipment. This amount represents a net decrease (including additions and depreciation) of \$284,981. A summary of the BOCES' Capital Assets is as follows:

Governmental Activities	Balance 06/30/15	Additions	<u>Deletions</u>	Balance 06/30/16

TABLE 3 – SUMMARY OF CAPITAL ASSETS

The BOCES decreased net capital assets by \$284,981. The change was due to an increase in total accumulated depreciation. The change in net capital assets did not include any additions in Machinery and Equipment. There were no equipment deletions for the fiscal year. This reduction was primarily the result of obsolete technology equipment being recycled. The BOCES' policy is to capitalize and inventory annually capital assets with a unit value of or greater than \$5,000 and an estimated useful life of or greater than one year.

As of June 30, 2016, the BOCES had total outstanding long-term debt as follows:

General Fund Budget

The Board of Directors adopts the BOCES' budget in May of each year. Changes are then made in September when grant allocations are announced and staff changes are made for the new school year. The adoption of supplemental budgets is allowed throughout the year when unanticipated additional revenues are received. The majority of changes to the BOCES' budget are due to grants awarded after the budget adoption. The final budget increased by \$667,753 over the original budget due to an increase in several projects, including three specific funding project sources – the CBOCES State Education Priorities Assistance project of \$87,365, Out of District Placement project of \$70,807 and the Colorado School Emergency Management grant of \$108,896. Actual expenditures for the year were \$498,0070 less than budgeted.

Economics Factors and Next Year's Budget and Rates

Joining forces to enrich educational opportunities for students, the BOCES provides high quality programs and services through partnerships and collaboration which support the educational priorities of member districts and enrich educational opportunities for students. The 2016-2017 budget addresses the major projects for the ensuing school year and provides an adequate level of funding for ongoing programs. The budget includes all programs associated with the thirteen districts within the BOCES. Overall, the original adopted BOCES' budget for 2016-2017 is \$11,717,125 or \$470,182 less than the final budget for 2015-2016. The main decreases are in Innovative Education Services budgets of \$424,552, and the reduction of Federal Program budgets of 305,987. Special Education budgets increased \$291,587 over the final 2015-16 budget.

Requests for Information

This financial report is designed to provide a general overview of the BOCES' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, 2020 Clubhouse Drive, Greeley, CO, 80634.

Independent Auditors' Report

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, major fund, and the related notes to the financial statements of the Centennial Board of Cooperative Educational Services, as of and for the year ended June 30, 2016, which collectively comprise the basic financial statements of the BOCES, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of Centennial Board of Cooperative Educational Services, as of June 30, 2016, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Centennial Board of Cooperative Educational Services 2015 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 5, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information – Management Discussion and Analysis and Pension Schedules

Accounting principles generally accepted in the United States of America require that the management, discussion and analysis on pages M1-M5 and the pension schedules on page 27 - 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Required Supplementary Information – Budgetary Comparison Schedule

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Accounting principles generally accepted in the United States of America require that the budgetary comparison schedules on pages 29 - 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the ditional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Report on Other Legal and Regulatory Requirements

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Colorado Department of Education Auditors' Electronic Financial Data Integrity Check Figures and Bolded Balance Sheet reports on pages 32 -35 are presented for state regulatory compliance and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2016 on our consideration of the Centennial Board of Cooperative Educational Services' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Centennial Board of Cooperative Educational Services' internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Centennial Board of Cooperative Educational Services (the BOCES) conform to generally accepted accounting principles as applicable to governmental units. Following is a summary of the more significant policies:

Reporting Entity

In evaluating how to define the government, for financial reporting purposes, the BOCES' management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*.

Based upon the application of these criteria, no governmental organizations are includable within the BOCES' reporting entity.

Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information of the BOCES as a whole. The reporting information includes all of the non-fiduciary activities of the BOCES. These statements are used to distinguish between the governmental and business-type activities of the BOCES. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The BOCES' does not report any business-type activity's.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the BOCES and for each function of the BOCES' governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include fees and charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues that are not classified as program revenues are presented as general revenues. The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements

The fund financial statements provide information about the BOCES' funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds would be aggregated and reported as non-major funds. Any fiduciary funds are presented separately. The BOCES presently does not have any non-major or fiduciary funds.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Fund Financial Statements (Continued)

The BOCES reports the following major governmental fund:

General Fund - This fund is the general operating fund of the BOCES. It is used to account for all financial activity.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the same time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions in which the BOCES gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The BOCES considers all revenues reported in the governmental funds to be available if they can be used to satisfy current obligations as of year end. These revenues could include federal, state, and county grants, and some charges for services. Grants are only recognized to the extent allowable expenditures have been incurred. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the BOCES funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, they are both restricted and unrestricted net position available to finance the programs. It is the BOCES' policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year end.

The BOCES adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Governmental Fund Financial Statements (Continued)

- Budgets are required by state law for all funds. By May 31, the Executive Director submits to the Board of Directors a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year end.
- Public hearings are conducted by the Board to obtain taxpayer comments.
- Prior to June 30, the budget is adopted by formal resolution.
- Budgets are required to be filed with the Commissioner of Education within thirty days after the beginning of the fiscal year.
- Expenditures may not legally exceed appropriations at the fund level.
- Revisions that alter the total expenditures of any fund must be approved by the Board.
- Budgeted amounts reported in the accompanying financial statements are as adopted or amended by the Board.

Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance

Cash - Cash is in interest bearing accounts which are comprised of certificates of deposit, savings accounts and money market accounts which are legally authorized. The balance in the cash accounts is available to meet current operating requirements.

Receivables - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets – Capital assets used in governmental activities operations are shown on the government-wide financial statements. These assets are not shown in the governmental funds and are therefore listed as a reconciling item between the two presentations. Property and equipment acquired or constructed for governmental fund operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the government-wide presentation. No depreciation has been provided on capital assets in the governmental funds.

Property and equipment is stated at cost. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance (Continued)

Depreciation has been provided over the estimated useful lives of the asset in the government-wide presentation. Depreciation is calculated using the straight-line method over the following useful lives:

Buildings and Site Improvements	50 years
Other Equipment	5-20 years

Unearned Revenues - The unearned revenues include governmental grants which have been received but not yet earned as service has not been provided.

Vacation, Sick Leave, and Other Compensated Absences - The BOCES employees do not vest in compensated absences for sick leave. Vacation and other compensated absence liabilities have been included as non-current liabilities.

Deferred outflows/inflows of resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government has two items that qualify for reporting in this category, both related to outstanding pension obligations and further described in Note 5.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred inflows for property taxes as described above and pension related deferrals as further described in Note 5.

Net Position/Fund Balances In the government-wide financial statements, net position are either shown as net investment in capital assets, with these assets essentially being nonexpendable; restricted when constraints placed on the net position are externally imposed; or unrestricted.

For the governmental fund presentation, fund balances that are classified as "nonspendable" include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

Fund balance is reported as "restricted" when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance (Continued)

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors, is reported as "committed" fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, are reported as "assigned" fund balance. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

All remaining fund balance in the General Fund is presented as unassigned.

Net Position/Fund Equity Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance, if allowed under the terms of the restriction. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Revenues and Expenditures

Revenues and Expenditures - Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the BOCES' financial position and operations. However, comparative (i.e., presentation of prior year totals by fund type) data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

Total Cash and Investments	\$ 1,292,915

Deposits

The Colorado Public Deposit Protection Act, (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At June 30, 2016, State regulatory commissioners have indicated that all financial institutions holding deposits for the BOCES are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. Deposits are categorized by type of credit risk: (1) Insured or collateralized with securities held by the pledging financial institution's trust department or agent in the entity's name. (3) Uncollateralized, including any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the entity's name.

Investments

The following are the major categories of assets and liabilities measured at fair value on a recurring basis during the year ended June 30, 2016 using quoted market prices in active markets (Level 1), significant observable inputs for similar assets (Level 2) and significant unobservable inputs (Level 3):

	Level 1	Level 2	Level 3	Total
Investment Pools	<u>\$ -</u>	<u>\$ 1,248,001</u>	<u>\$ -</u>	<u>\$ 1,248,001</u>

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

• **Investment Pools:** Valued at the proportionate share of ownership of the quoted market prices of the underlying assets.

The BOCES recognizes transfers between levels in the fair value hierarchy at the end of the reporting period. During 2016, there were no changes in the methods or assumptions utilized to derive the fair value of the BOCES' assets and liabilities.

The BOCES had invested in the Colorado Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. Colotrust operates similarly to a money market fund and each share is equal in value to \$1.00. Investments of Colotrust consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank provides safekeeping and depository services to Colotrust in connection with the direct investment and withdrawal functions of Colotrust. Substantially all securities owned by Colotrust are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by Colotrust. The fair value of the position in the pool is the same as the valuation of the pool shares.

<u>Cash Invested</u> - Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. The allowed investments include local government investment pools and obligations of the United States Government.

<u>Interest Rate Risk</u> – The BOCES does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit Risk</u> – State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The BOCES has no investments policy that would further limit its investment choices. At June 30, 2016 the BOCES' investment in the Colorado Government Liquid Assets Trust (Colotrust) was rated AAAm by Standard & Poor's.

<u>Concentration of Credit Risk</u> – The BOCES Board has placed no limit on the amount the BOCES may invest in any one issuer.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 3: CAPITAL ASSETS

The BOCES' policy is to capitalize and inventory annually all capital assets with a unit value of or greater than \$5,000 and an estimated useful life of or greater than one year.

A summary of changes in capital assets is as follows:

NOTE 4: ACCRUED SALARIES AND BENEFITS

Salaries and retirement benefits of certain contractually employed personnel are paid over a twelve month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, as of June 30, 2016, are \$265,255. Accordingly, the accrued compensation is reflected as a liability in the accompanying financial statements of the General Fund.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN

Summary of Significant Accounting Policies

Pensions. The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description. Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

General Information about the Pension Plan (Continued)

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average of the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

General Information about the Pension Plan (Continued)

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions. Eligible employees and the District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

January 1 st through December 31 st	2014 ¹	2015 ¹
Employer contribution rate	10.15%	10.15%
Amount of employer contribution apportioned to		
the Health Care Trust Fund as specified in C.R.S. 24-	-1.02%	-1.02%

Total employer contrbution rate to the SCHDTF	16.43%	17.33%

¹ Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from District were \$648,744 for the plan year ended December 31, 2015 and \$705,381 for the fiscal year ended June 30, 2016.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$13,911,128 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2013. Standard update procedures were used to roll forward the total pension liability to December 31, 2015. The District's proportion of the net pension liability was based on District's contributions to the SCHDTF for the calendar year 2015 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2015, the District's proportion was .0909%, which was a increase of .0034% from its proportion measured as of December 31, 2014.

For the year ended June 30, 2016 the District recognized pension expense of \$1,382,675. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years.

The actuarial assumptions used in the December 31, 2013 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The SCHDTF's long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent analysis of the long-term expected rate of return, presented to the PERA Board on November 15, 2013, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	10 Year Expected Geometric Rate of Return
U.S Equity - Large Cap	26.76%	5.00%
U.S Equity - Small Cap	4.40%	5.19%
Non U.S. Equity - Developed	22.06%	5.29%
Non U.S. Equity - Emerging	6.24%	6.76%
Core Fixed Income	24.05%	0.98%
High Yield	1.53%	2.64%
Long Duration Gov't/Credit	0.53%	1.57%
Emerging Market Bonds	0.43%	3.04%
Real Estate	7.00%	5.09%
Private Equity	7.00%	7.15%
Total	100.00%	

* In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.50%.

Discount rate. The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the fixed statutory rates specified in law, including current and future AED and SAED, until the Actuarial Value Funding Ratio reaches 103 percent, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero.

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Based on those assumptions, the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the Municipal Bond Index Rate. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Proportionare share of the net pension asset (liability)	\$ (18,032,888)	\$(13,911,128)	\$(10,482,593)

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at <u>www.copera.org/investments/pera-financial-reports</u>.

NOTE 6: DEFINED CONTRIBUTION PENSION PLAN

Voluntary Investment Program

Plan Description - Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The District does not contribute to the plan. Employees are immediately vested in their own contributions, employer contributions, if any, and investment earnings. For the year ended June 30, 2016 program members contributed \$97,317.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS

Health Care Trust Fund

Plan Description – The District contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy – The District is required to contribute at a rate of 1.02% of PERAincludable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the District are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2016, 2015 and 2014 each of the two preceding, the District contributions to the HCTF were \$37,149, \$35,503, and \$33,950, respectively, equal to their required contributions for each year.

Capital Leases

In February 2007, the BOCES entered into a lease agreement for \$1,824,300 to purchase a new computer system. The semi-annual payments of \$113,190 are due through February 2017 at an interest rate of 4.3%.

In November 2011, the BOCES entered into a lease agreement for \$24,052 to purchase a copier. Monthly payments of \$446 are due through July 2017 at an interest rate of 6%.

In June 2013, the BOCES entered into a lease agreement for \$925,000 to refinance a prior lease agreement of an office building in Greeley, Colorado. Included in the refinance were additional moneys for improvements to the office building. Monthly payments of \$10,397 are due through December 2021, at an interest rate of 3.0%. There was \$15,472 of unspent lease proceeds remaining as of June 30, 2015.

In January 2014, the BOCES entered into a lease agreement for \$42,980 to purchase a vehicle. Monthly payments of \$798 are due through December 2018, at an interest rate of 4.3%. The BOCES has capitalized assets of \$42,980 related to this lease.

The future minimum capital lease payments at June 30, 2016, are as follows:

Year	 Amount
2017	363,836
2018	134,335
2019	129,541
2020	124,765

2022	 62,382
Total Future Minimum Lease Payments	939,624
Less: Interest Portion	 (63,532)
Present Value of Future Minimum Lease Payments	\$ 876,092

NOTE 9: RISK MANAGEMENT

The BOCES carries commercial insurance for various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. Settled claims resulting from these risks have not exceeded commercial or BOCES coverage in any of the past three years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.

NOTES TO FINANCIAL STATEMENTS June 30, 2016

NOTE 10: <u>SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND</u> <u>CONTINGENCIES AND COMPLIANCE</u>

Claims and Judgments - The BOCES participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the BOCES may be required to reimburse the grantor government. As of June 30, 2016, significant amounts of grant expenditures have not been audited by state and federal agencies, but the BOCES believes that disallowed expenditures, if any, based on subsequent state and federal audits will not have a material effect on any of the individual governmental funds or the overall financial position of the BOCES.

Tabor Amendment - In November 1992, Colorado voters passed the Tabor Amendment (Amendment 1) to the State Constitution which limits state and local government tax powers and imposes spending limits. The amendment does not specifically address BOCES. However, several legal opinions have been issued stating that a BOCES itself is not subject to the requirements and restrictions of the TABOR amendment. There have been several recent court cases with organizations similar to BOCES, where the court has found that these organizations are not subject to TABOR since they are not a municipality and do not exercise independent "Government" power. However, in virtually all situations BOCES will be impacted to the degree that their member districts are impacted by the restrictions of TABOR. A BOCES does not need to maintain emergency reserves required by TABOR and expenditures can fluctuate independently of TABOR.

Equity ownership - The BOCES had discussions with a prior member district of the Weld County BOCES as to their equity in the BOCES when they withdrew under an agreement dated August 31, 1995. In 1996, the prior member district requested a payment of \$40,185 for their existing equity. At that time, BOCES legal counsel advised the Centennial BOCES that the BOCES does not have an obligation to return the equity unless the BOCES dissolves. In the future, if the BOCES dissolves, the \$40,185 will be paid from funds generated by the sale of the capital assets of the BOCES. This amount is included as an other long-term liability in the governmental activity presentation.
