Internship Position
Dauphin Island Sea Lab: Discovery Hall Programs

Position: Marine and Environmental Science Education Intern
Organization: Dauphin Island Sea Lab
Department: Discovery Hall Programs for Education & Outreach
Location: Dauphin Island Sea Lab
Duration: 9 weeks, summer
Interests Required: Science, Education
Time requirements: Approximately 30 hrs per week
Compensation: $10 / hr
Start Date: Orientation May 28; Jun 1– Jul 31, 2020

Job Description:

The intern will assist in preparation for Discovery Hall Programs summer camps for students of all ages. These tasks may consist of preparing for craft activities, accompanying student field trips to island sites, retrieving items from other campus locations, getting ice, snacks and drinks, loading/unloading vehicles and boats, scanning, printing and collating documents, organizing camp supplies, assisting in outreach events, and other duties as assigned.

Qualifications:

Students wishing to work in Discovery Hall Programs should:
- Have completed their junior or senior year of high school
- Work well with others
- Like children and people
- Be a self-starter, arriving at work on time, comfortable being held responsible for completing tasks and communicating daily with the supervisor
- Be comfortable working outside in all types of weather encountered during typical Gulf coast summers (heat, sunny, humid, rain, wind, etc.)
- Be able to lift ~30 lbs
- Be able to get themselves to and from the Sea Lab on a daily basis
- Be able to work an occasional night or weekend
- Be able and willing to communicate well with the supervisor and other departmental personnel
- Be able to provide a letter of recommendation from a counselor, teacher, or previous employer

Application Procedure:

Interested students should forward their resume and a cover letter to their school Signature Academy Specialist. Any questions about the position can be directed to Ms Sara Johnson, Administrative Assistant, Discovery Hall Programs at 251-861-2141, 7515 or DHPSummer@disl.org
