

4th Grade Summer Reading

Keep a log this summer of what you are reading and the number of pages you read that day. You should read a minimum of 2 chapter books that are on your higher AR level. You will take an AR test on these books the week we come back to school. You may want to make some notes on the book as you are reading to review before you take the tests. Attached is a reading log for you to use. Write the name of the book and the author on the top line and date and the number of pages you read on that day. You will return the reading log to me when school begins. Have a great summer and enjoy reading. I look forward to seeing you in 4th grade this August.
