

FRAZIER SCHOOL DISTRICT DEVICE PROTECTION

Students attending Frazier School District typically use electronic devices such as Chromebooks and iPads during their daily instruction. In fact, the majority of our students each have a device issued directly to them for use at school and home (take-home is at the discretion of the school principal). These devices serve as powerful tools in your child's education by helping to individualize learning and instruction, and to prepare them for success once they have graduated.

Just like textbooks and other school property, there is a responsibility to take appropriate care of these valuable resources. We understand that parents and students are concerned with keeping these devices secure and in good working order, but accidents happen anyway. The average device repair cost during the 19-20 school year was \$110.

In response, Frazier School District is offering families the opportunity to participate in a program that provides accidental damage protection for all district owned electronic devices the student uses during the 20-21 school year.

Here are some important facts about the coverage:

- Fees: \$25, \$15 for reduced lunch status and \$10 for free lunch status paid annually. Partial semesters/years are not refundable.
- Covers ALL computing devices the student uses whether individually assigned or not.
- Available to all families with students in grades K - 12.
- **Limited time to enroll - August 10, 2020 thru September 14, 2020.** After that period, coverage enrollment is only available to new students. Because enrollment is available prior to the start of school, any damages will be billed at full cost if the student is not covered - even during the first week of school.
- Provides coverage for accidental damage of a student's device at school or at home.
- The device is repaired at no cost to the family.

Please note:

- The number of covered accidental damage repairs per year is limited at one.
- Willful damage is NOT covered, and damage assessment will be at the sole discretion of the district.
- The protective case must remain on the device at all times.
- Theft and loss are NOT covered by this plan and full replacement value must be paid in such an event. Once the cost of the missing device has been paid, a new device will be issued. Accidental damage coverage will remain in effect if the parent has enrolled in the plan.
- The charger, protective case and any other peripherals issued with the device are NOT covered by the program.

How to enroll:

Payment can be made Online or directly to the district. Please visit Frazier School Districts e~funds site to make your payment Online. <https://payments.efundsforschools.com/v3/districts/56210> Simply create an account and have your student's' Other ID number handy to identify who you're purchasing the device protection for. Student Identification Numbers can be located in your Skyward Family Access portal in the student's Portfolio.
