

# Hardee Virtual Academy (6-12)

## **Student Requirements and Expectations**

- HVA is a fully virtual program and full-time students are expected to complete a minimum of six courses per semester.
- To be successful, students must be well-organized, self-motivated, and prepared to meet the challenges of independent and virtual instruction.
- Parents and guardians are essential in actively monitoring their child's progress and supporting a regular schedule of academic participation and engagement.
- The HVA program offers flexibility in allowing students to set their own weekly schedule but students are still required to meet minimum weekly progress goals to remain in the program.
- Minimum weekly progress is defined as mastery of 60% of each course per week.
- Students are required to complete all courses with a 60% or higher to receive credit. No partial credits or transfer grades are awarded.
- Students who experience 10+ days absent will be considered truant and a Truancy Intervention Plan will be implemented.
- Students who fall behind or are unable to maintain the required pace and progress will be required to return to their regular school the following semester.

"Empower and inspire all students for success"
