GENERAL INFORMATION

Elementary School Hours:

- Monday, Tuesday, Thursday, and Friday school hours 8:05a.m.-3:05p.m.
- Wednesday school hours are 9:05a.m. - 3:05p.m.

Attendance:

We need your help in reaching our district attendance goal of 95% student average daily attendance. Please know that student attendance effects school success.

If you need to report an absence, please call your child's school and tell the secretary the reason for the absence. You may leave a message if no one answers your call. Your phone call and the reason of the absence will be documented, and your child's teacher will be notified. If you cannot call the school prior to your child being absent please send a note with an explanation with your child on his/her next day of attendance. Good communication between home and school is important for the academic success of your child.

If you know your child will be absent from school ahead of time you may inform his/her teacher by phone, email, or a note stating the date and reason of the future absence.

Excused absences are defined as:

- Death in the student's immediate family
- Illness or hospitalization
- Doctor or dental appointments, when a note from office is returned
- Certain days for religious observation
- Court appearance

If your child needs to leave school early for any reason a ***parent, sibling at least 18 years old or older, or a family member listed as an emergency contact in our school records***, must come into the school and sign the student out from the office. No elementary aged student will be allowed to leave school early without this procedure being followed.

Tardy/Truancy:

Students are considered tardy to school if they arrive to school after the scheduled start time. Any student that arrives to school later than 15 minutes after school has started is considered truant and must be accompanied by an adult.

Chronic absences or truancies shall be defined as: missing an excessive number of school days for any reason, whether excused or unexcused, and truancy, which refers to students missing school without a valid excuse. Valid cause for absence means personal illness, observance of a religious holiday, death in the immediate family, family emergency, and other circumstances beyond the control of the student as determined by the administration.

Students who are experiencing truancy problems will receive the following assistance:

- Parent/Guardian contact
- Personal conference with administration
- I-Team Intervention
- Meet with the school counselor on a regular basis
- Positive encouragement/attendance incentives from school
- 3 trancies will result in a formal warning letter pertaining to student attendance to the parent/guardian
- 5 trancies will result in a detention for the student and a social worker referral
- 10 trancies will result in 2 days of ISS, a parent conference, and St. Louis Family Court Referral

Leaving School Grounds During the School Day:

No student will be allowed to leave the school premises during school hours. A child must present a written request from his/her parent or guardian to the main office on the day of or prior to the expected absence. The request must be signed by a parent/guardian. Notes may be verified by phone calls made to the parent or guardian from a school official. Please note that just because a student has been allowed to leave during the school day does not indicate that the absence is excused. **Older siblings under the age of 18 years may not pick students up from school before dismissal.**

Dismissal Procedures:

Each elementary school will have its own dismissal procedure. Please follow the school's procedures and expectations during dismissal for the safety of your child and all students.

Walkers - It is important to note that school personnel cannot be stationed throughout the surrounding neighborhoods or community to ensure student safety while walking. As part of our district-wide focus on safety, please review the following expectations of all students who walk to or from school.

Students who walk to or from school should:

1. Walk straight to school and/or home
2. Walk on sidewalks if at all possible -Be alert to traffic on the roads
3. Only cross streets at intersections
4. Walk with a partner or group of friends -Be alert to strangers and/or people acting strangely
5. Be aware and do not bother animals even those not contained by fences or restrained by leashes
6. Remain on public property and refrain from walking onto private property
7. Use polite language and actions with each other and other community members
8. Show Riverview Gardens School Pride! (Respect, Responsibility and Safety)

Bus & Van Riders - Bus transportation is furnished for any child living a distance of one mile or more from school. Riding the bus is a privilege. **Bus privileges will be taken away for inappropriate behavior on the bus or at the bus stop.**

The decision for suspending bus privileges will be determined by the principal following a written referral from the bus driver.

Appropriate behavior is expected at all times for the safety of everyone. Bus riders are expected to ride the bus home daily unless a note is sent to school by the parent stating otherwise. During the first week of school, and periodically throughout the school year, students will learn and practice behaviors for the bus that coincide with our school-wide expectations: Be Safe, Be Respectful, and Be Responsible.

School Bus Rules:

- Obey the bus driver
- Remain seated in an assigned seat
- Students who walk home are not allowed to ride any bus in order to go to a relative's or friend's home
- Yelling, cursing, hitting, kicking, spitting, etc. are not allowed on the bus
- Students are not permitted to eat on the bus
- No animals are allowed in the bus
- Bus riders may not walk home without written permission
- Students may only ride their assigned bus

Failure to follow these rules may result in those students losing their bus privileges.

Automobile Traffic - In an effort to provide a safe and quick dismissal process, vehicles should not be unattended. School staff will be present on the parking lot in front of the school to assist each vehicle with student pick-up. Staff will supervise students to each vehicle. Please remember to drive slowly and safe in the school zone at all times.

Inclement Weather/School Cancellations – If there is a question as to whether or not school will be in session or dismissed early, watch the local news stations, and check the district web page at **www.rgsd.k12.mo.us**. A district-wide call will be sent to the student's primary phone number, so please **make sure we have your correct phone number on file.** **Be sure your child knows what to do if school is dismissed early,** although an early dismissal would be only in extreme circumstances.

Lunch is also free for all students. Every student attending a school in the Riverview Gardens School District may receive a school lunch every day at no cost. A student may bring a lunch from home if he/she chooses to do so. Healthy eating habits are strongly encouraged. Lunches of only candy and chips should not be brought to school. Soda should not be sent to school either, unless a student is going on a field trip where lunches are being eaten away from school. Lunch times will vary by school and grade.

Health and Medication:

The school nurse will:

- Control and prevent the spread of communicable disease among children.
- Conduct follow-up programs related to physical examinations and diseases.
- Give first aid to children injured at school.
- Make recommendations concerning the sanitation and hygienic conditions of the school.
- Communicate with parents/guardians concerning individual student issues.
- Ensure that immunization is up-to-date.

Immunization - The following requirements **must** be met prior to your child's first day of school. Required immunizations include:

DTaP - 4+ doses

IPV -3 doses (the first of these doses **MUST** have been received at age 4 or older. No more than 4 doses of IPV are required for school attendance.

Rubella (Mumps) - 2 doses (One dose on or after first birthday; the second dose is required at least 28 days after the first dose.)

Hepatitis B vaccine - 3 doses

Varicella - 2 doses for Kindergarten and First grade, 1 dose for grade Second-Sixth grade.

DT booster - required every 10 years.

You must furnish the school with the month, day, and year on which these immunizations have been received, per **Missouri Law 1 67.1 81**. If you have any questions regarding your child's immunization status or for more detailed information, please contact the school nurse. Immunizations for county students may be obtained free of charge, ask the nurse for locations.

Accident/Illness at School - Our goal is to ensure that students are safe at all times, however, we realize that accidents may occur during the school day. Parents/guardians will be informed in the case of injuries or illness, which requires treatment or attention.

Student Insurance - School insurance is available to all students at a reasonable rate. The school district does not carry insurance that will pay the medical bills of students injured at school or traveling to and from school. Parents may purchase low cost student accident insurance that provides coverage either during school or 24 hours a day during the school year. Please make special note of the application that has been made available.

Contagious Diseases - In the event of a contagious disease, the office should be notified immediately. The school urges you to keep your child home until his/her temperature has been normal for at least 24 hours, without the use of a fever reducer. Children with a temperature of 100° or higher will be sent home.

Medication Policy - It is the policy of the School District that only the trained school staff or the school nurse will administer the giving of medicine to students. Prescription medicine will be handled only within the following circumstances:

- All medicines are to be given under the specific authorization of the student's physician.

- Teachers are not permitted to give medicine to students.
- Medication must be brought immediately to the office and not kept by the students or teacher.
- Parents are invited to come to the school to dispense medication, if desired.

Other than following directions as given by the physician, the School assumes no responsibility connected with the administering of medicines to students.

Allergy Policy and Procedures - The purpose of this policy is to create an organized system for preventing and responding to allergic reactions. This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions. The best form of prevention for life-threatening allergies is avoidance of the allergen. Research shows that allergies can negatively impact student achievement by affecting concentration, auditory processing and attendance. Further, healthy students are better learners. In addition to posing health risks, allergies can be potentially deadly for some individuals.

This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Allergy Identification:

Each school will attempt to identify students with life-threatening allergies, including food allergies. An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions can range from mild to severe, even life threatening. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Allergy Prevention:

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An individualized health plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.

Celebrations/Parties – The teacher has primary responsibility for room parties. Three parties per year may be held in each classroom. In most rooms, fall, winter and Valentine's Day have been the appropriate days.

DISTRICT WIDE STUDENT BEHAVIOR EXPECTATIONS

- Be Safe
- Be Respectful
- Be Responsible

These are primary expectations of student behavior to establish an effective learning environment for all students. Teachers may use the first 20 minutes of each morning (M, T, Th & F) for classroom morning meetings in order to set the stage for the day. During that time, students may greet and welcome each other, as well as discuss what safe, respectful and responsible behavior will look like throughout the day. Research indicates that it is just as important to teach social skills and behavior expectations, as it is to teach math and reading. We look forward to sharing this concept with parents and encourage parents to adopt a similar approach for teaching expectations at home.

PBIS - Positive Behavior Instructional Support

PBIS teaches students appropriate ways to act in different school settings and sets the behavior expectations for the school. The goal is for all students to be safe, be respectful, and be responsible. Please review with your student what it means to be safe, be responsible, and be respectful.

Recess -Playground expectations will be taught as a part of PBIS. Students are expected to: Be Responsible, Be Respectful, and Be Safe. While at recess, students should include others, take turns, share equipment, and report all concerns to adults.

Technology Policy - Students are not allowed to have the following items at school: pager, mp3, IPOD, handheld video games, etc. If a student brings a cell phone to school it needs to remain off and out of site during the entire day at school. The school/district is not responsible for stolen or lost items. These items will be confiscated and locked in a secure location until retrieved by a parent or guardian.

DISTRICT WIDE ACADEMIC EXPECTATIONS

Homework - Expect your children to have homework each night. **Our expectation is that students will read for 20 - 30 minutes each night independently, with a sibling or with an adult and complete 10 - 30 minutes of math, science and/or social studies. (This may involve studying for a test in grades 3-5).** Reading logs will be used at all grades. Parents are expected to sign these logs, homework folders and planners on a daily basis, in addition to checking for homework completion. **Parents are asked to check book bags each evening for homework assignments and notes from school. Please check book bags each morning, as well, to be sure that inappropriate items (toys, electronic, etc.) are not being brought to school.**

Parents can assist the school's efforts by establishing routines and procedures at home for completing homework. Provide a regular time and place (away from television and radio) to complete daily assignments. Help your child become organized by having a system for noting assignments, keeping an adequate supply of paper and pencils on hand at both home and school, and designate a place to leave books and papers to be taken to school the next day.

Supplies -All students are expected to furnish their own supplies from a list provided by each school. It is important that you replenish your child's school supplies as the year progresses. Please try to label your child's items.

Learning Materials - Students are issued learning materials every year that cost between \$15 and \$50. Damaged or destroyed learning materials are very expensive to replace. Please instruct your child on proper care of his/her learning materials. Each student is required to print his/her name on the inside front cover for identification. Please check to ensure this has been done. The responsibility for the care and maintenance lies with each child. If a book is lost, stolen or destroyed the parent/guardian is responsible for the replacement cost of the book (s).

Make-Up Work

1. Students who are absent shall have the opportunity to make up work. It shall be the responsibility of the student to contact the teacher(s) involved to determine make-up assignments and establish mutually agreeable times for daily work and test make-up. Students will be granted the same amount of time they were absent in which to make up the work.
2. Students who have justifiable reasons for absences, such as illness or accident, and whose probable absence will extend beyond four (4) weeks can be referred for homebound instruction.
3. The building administrator and staff have the authority to establish specific procedures for administering the "make-up policy".

Physical Education Class

Students will attend a physical education class at least once a week. It is important for the students to wear athletic shoes and be appropriately dressed for physical activities on the day they participate in gym class.

Missing one day from physical education or physical activity is allowed with a written note from home. Exclusion for a longer period of time requires a written note from a medical doctor. This note will be kept on file in the nurse's office and is valid until the release is received from the doctor.

Retention - Retention may be considered when, in the judgment of the professional staff, it is in the best educational interest of the student involved. Parents/Guardians will receive prior notification and explanation concerning the retention. However, the final decision will rest with the school administration.

State law requires that all students who are reading below a third-grade reading level according to the district's fourth-grade reading assessment shall be retained if the student has not adequately improved by the end of summer school. Further, if a student fails to attend remediation assigned as a condition of promotion, the student will be retained.

DISTRICT WIDE SAFETY AND SECURITY POLICIES

Fire and Emergency Drills - Fire and emergency drills are required by law and are an important safety precaution. It is essential that when the first signal is given, everyone obeys orders promptly and clears the building by the prescribed route as quickly as possible. The teacher in each classroom will give the students instructions.

Bus Safety - Any offense committed by a student on transportation provided by or through the district shall be punished in the same manner as if the offense had been committed at school. In addition, transportation privileges may be suspended or revoked.

For each student's safety, the following behavior is expected while boarding and riding the bus. In order to transport your child to/from school safely, we ask that parents discuss these rules with students.

- Students are expected to obey the bus driver.
- Students are to remain seated in an assigned seat.
- Students who walk home are not allowed to ride any bus in order to go to a relative or friend's home.
- Students are not permitted to eat on the bus.
- No animals are allowed on the bus.
- Bus riders may not walk home without written permission.
- Students may only ride their assigned bus.

Traffic and Child Safety - The school assumes no responsibility for bicycles; therefore, all bikes must be secured with a lock. Students riding bikes are encouraged to adhere to bicycle safety regulations.

DISTRICT WIDE ELEMENTARY SCHOOL POLICIES AND PROCEDURES

Hallway Rules - In order to maintain an orderly building and be respectful to the other classes:

- Students will walk in a single file line (one behind the other)
- Students will keep hands and feet to self.
- Students will be expected to remain silent. No talking while walking or standing in line.
- Students will walk on the right-hand side of the hall stopping at designated points to allow constant adult supervision.

Playground Rules – The playground is open only when supervision is available. Therefore, students are not to be on the playground before or after school. Playground rules are given to ensure safety of all students.

- No tackle football is to be played at school.

Most often parent volunteers will be asked to accompany a group to provide additional supervision. If you would like to volunteer for a field trip, please contact your child's teacher.

Only adult family members will be allowed to accompany students on a field trip. Information and forms can be downloaded from the RGSD website.

After School Activities - All after-school activities will be school sponsored. Participation on the part of the student is voluntary and based on the activity guidelines. Detention - Detention is given as an alternative to out-of-school suspension.

Notices will be sent home which MUST be signed and returned prior to a student serving detention. If the form is not returned, the student will be excluded from detention and other disciplinary actions may be taken. It is the student's responsibility to take the notice home, have it signed and return it to school the next day.

Lost and Found - Each year, many valuable items are not claimed from our Lost and Found. Due to the similarity of items, it is important that all belongings brought to school be clearly labeled with the child's first and last name. Small items such as jewelry, keys and eyeglasses will be turned in to the office. Unclaimed items will be donated to charity at the end of each semester.

Cell Phones -No student is allowed to have a cell phone visible and/or turned on during school hours. The school/district is not responsible for stolen or lost items. These items may be confiscated if displayed.

Missouri Department of Elementary & Secondary Education Every Student Succeeds Act COMPLAINT PROCEDURES

The Federal Every Student Succeeds Act of 2015 (ESSA), Title IX Part C. Sec. 9304(a)(3)(C) requires the Missouri Department of Elementary & Secondary Education (DESE) to adopt procedures for resolving complaints regarding operations of programs authorized under the Act, including Title I, Title II, Title III, Title IV (Part A), Title V, Title VI, and Title VII and Title IX, part C.

Who May File a Complaint

Any local education agency (LEA), consortium of LEAs, organization, parent, teacher, or member of the public may file a complaint.

Definition of a Complaint

There are both formal and informal complaint procedures.

A formal complaint must be a written, signed statement that includes:

1. an allegation that a federal statute or regulation applicable to the state educational agency (SEA) or a local education agency (LEA) program has been violated,
2. facts, including documentary evidence that supports the allegation, and
3. the specific requirement, statute, or regulation being violated.

Alternatives for Filing Complaints

It is federal and state intent that complaints are resolved at a level nearest the LEA as possible. As described below, formal complaints filed with the SEA will be forwarded to the appropriate LEA for investigation and resolution. Informal complaints made to the SEA will be subject of an initial investigation by the SEA but will be forwarded to the LEA if a formal complaint evolves. Precise processes in both instances are described below.

Informal and Formal Complaints Received by the Local Education Agency

Informal and formal complaints filed with the LEA concerning ESSA program operations in that LEA are to be investigated and resolved by the LEA according to locally developed procedures, when at all possible. Such procedures will provide for:

1. disseminating procedures to the LEA school board,
2. central filing of procedures within the district,
3. addressing informal complaints in a prompt and courteous manner,
4. notifying the SEA within 15 days of receipt of written complaints,
5. timely investigating and processing of complaints within 30 days, with an additional 30 days if exceptional conditions exist,
6. disseminating complaint findings and resolutions to all parties to the complaint and the LEA school board. Such findings and resolutions also shall be available to parents, teachers and other members of the general public, provided by the LEA, free of charge, if requested, and
7. appealing to the Missouri Department of Elementary & Secondary Education within 15 days

Rev. 9/6/07

Appeals to the Missouri Department of Elementary & Secondary Education will be processed according to the procedures outlined in sections below.

Informal Complaints Received by the SEA Office

Informal complaints (i.e., verbal and/or anonymous) to the SEA by individuals (who may ask not to be identified to the LEA) concerning program operations in an LEA will be investigated by the SEA, according to procedures deemed most appropriate by the SEA, within 10 days of receipt of the complaint. Findings of this investigation shall be reported to the complainant within 10 additional days. In the event that the complainant requests further investigation or a hearing, the complainant must file a signed written complaint. This formal complaint will be processed according to procedures outlined in sections below.

Formal Complaints Initially Received by the SEA Office

1. *Record.* Upon receipt of a written complaint, a record of the source and nature of the complaint, including the applicable program involved in the complaint, statute violated and facts on which the complaint is based, will be initiated.
2. *Notification of LEA.* Within 15 days of receipt of the complaint, a written communication will notify the district superintendent and the district NCLB coordinator of the complaint filed with the SEA. Upon receipt of the communication, the LEA will initiate its complaint procedures as set forth above. If the complaint is that an LEA is not providing equitable services to private school children, it also will be filed with the U.S. Secretary of Education.
3. *Report by LEA.* Within 20 days of receipt of the complaint, the LEA will advise the SEA of the status of the complaint resolution proceedings and, at the end of 30 days, will submit a written summary of the LEA investigation and complaint resolution. This report is considered public record and may be made available to parents, teachers, and other members of the general public. A copy of this procedure also will be filed with the U.S. Secretary of Education, if it involves equity of services to private school children.
4. *Verification.* Within ten days of receipt of the written summary of a complaint resolution, the DESE office will verify the resolution of the complaint through an on-site visit, letter or telephone call(s). Verification will include direct contact with the complainant. If the complaint is about equity of services to private school children, the U.S. Secretary of Education shall also be given copies of all related communications.

Appeals

Appeal to the SEA

1. *Record.* Upon receipt of a written appeal to a complaint unresolved at the LEA level, a record of the source and nature of the complaint, including the applicable program involved in the complaint, statute violated and facts on which the complaint is based, will be initiated.
2. *Investigation.* The SEA will initiate an investigation within 10 days, which will be concluded within 30 days from receipt of the appeal. Such investigation may include a site visit if the SEA determines that an on-site investigation is necessary. By stipulation of all concerned, this investigation may be continued beyond the 30-day limit.
3. *Hearing.* If required by the SEA, or formally requested by parties to the complaint, this investigation will include an evidentiary hearing(s) before a SEA Division Director acting as chairperson and designated staff personnel. Conduct of such hearings will follow the procedures outlined in state rules. The hearing proceedings shall be tape recorded and the recording preserved for preparation of any transcript required on appeal.

Rev. 9/6/07

Decision

Within 10 days of conclusion of the investigation and/or evidentiary hearing(s), the SEA will render a decision detailing the reasons for its decision and transmitting this decision to the LEA, the complainant, and the district school board. Recommendations and details of the decision are to be implemented within 15 days of the decision being given to the LEA. This 15-day implementation period may be extended at the discretion of the SEA Division Director. The complainant or the LEA may appeal the decision of the SEA.

Formal LEA Complaints Against SEA

1. Record. The SEA will record the source, and nature of the complaint, including the applicable program involved in the complaint, statute violated and facts on which the complaint is based.
2. Decision. The SEA decision will be rendered within 15 days of the complaint receipt. The LEA will be promptly notified of the SEA's decision.
3. Appeal. The LEA may appeal the decision of the SEA to the SEA review board within 30 days of receipt of the decision. Procedures under the "Appeal to the State Agency Review Board" section will be followed.
4. Second Appeal. An applicant has the right to appeal the decision of the SEA Review Board to the U.S. Secretary of Education. The applicant shall file written notice of the appeal with the Secretary within 20 days after the applicant has been notified by the SEA of its decision.

Complaints Against LEAs Received from the United States Department of Education

1. Complaints against LEAs received from the U.S. Department of Education will be processed as though they had been received initially at the SEA.
2. A report of final disposition of the complaint will be filed with the U.S. Department of Education.
3. These procedures shall not prevent the SEA from partially or wholly interrupting funding of any LEA IASA program or taking any other action it deems appropriate.

Procedure Dissemination

1. This procedure will be disseminated to all interested parties through the agency webpage at <http://dese.mo.gov> and to subscribers to the Federal Programs listserv.
2. This guidance will be distributed through regional and statewide meetings with Federal Programs Coordinators. LEAs are asked to incorporate the elements of the complaint procedure into their own policies and procedures.
3. DESE will also keep records of any complaints filed through this policy.

ASBESTOS NOTICE

In the past, asbestos was used extensively in building materials because of its insulating, sound absorbing, and fire retarding capabilities. Virtually any building constructed before the late 1970s contained some asbestos. Intact and undisturbed asbestos materials generally do not pose a health risk. Asbestos materials, however, can become hazardous when, due to damage or deterioration over time, they release fibers. If the fibers are inhaled, they can lead to health problems, such as cancer and asbestosis.

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which requires schools to be inspected to identify any asbestos containing building materials. Suspected asbestos-containing building materials were located, sampled (or assumed) and rated according to condition and potential hazard. Every three years, the Riverview Gardens School District has conducted a re-inspection to determine whether the condition of the known or assumed asbestos containing building materials (ACBM) has changed and to make recommendations on managing or removing the ACBM. At the last re-inspection conducted in August 2007 on all district buildings with the exception of Danforth Intermediate, the Family Resource Center, and St. Sebastian School, all materials listed in the Management

Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition. At the last re-inspection conducted in August 2008 at the Family Resource Center and Danforth Intermediate School buildings in August 2008 and at St. Sebastian School in August 2008, all materials listed in the Management Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition. The law further requires an asbestos management plan be in place by July 1989. Riverview Gardens School District developed a plan, as required, which has been continually updated. The plan has several ongoing requirements: publish a notification on management plan availability and the status of asbestos activities; educate and train its employees about asbestos and how to deal with it; notify short-term or temporary workers on the locations of the asbestos containing building materials; post warning labels in routine maintenance areas where asbestos was previously identified or assumed; follow set plans and procedures designed to minimize the disturbance of asbestos containing building materials; and survey the condition of these materials every six months to assure that they remain in good condition.

The following buildings contain no asbestos-containing building materials, therefore no operations and maintenance programs or future inspections are required: Moline Elementary and Westview Middle School. During the past year, asbestos containing building materials have been removed, encapsulated, or enclosed in the following buildings: Riverview Gardens High School, Highland Elementary School, Koch Elementary School, Gibson Elementary School, St. Sebastian School and the Transportation Building. During the next year, we plan to conduct the following asbestos related activities at the following school buildings Riverview Gardens High School, Glasgow Elementary School, Central Middle School, Highland Elementary School, Danforth Primary School, Danforth Intermediate School, Lemasters Elementary School, Meadows Elementary School and Koch Elementary School.

It is the intention of Riverview Gardens School District to comply with all federal and state regulations controlling asbestos and to take whatever steps are necessary to ensure students and employees a healthy and safe environment in which to learn and work. You are welcome to review a copy of the asbestos management plan at the district's Department of Facilities at 10101 Lewis and Clark Blvd or by calling the Facilities Department, our designed asbestos program coordinator, at 314-869-9564, ext. 2656, during regular business hours, and all inquiries regarding the asbestos plan and asbestos-related issues should be directed to him.

SERVICES AND RIGHTS FOR STUDENTS WITH DISABILITIES

Students with disabilities have protections and rights under Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA), and, when diagnosed with an educational disability that requires special education services, the Individuals with Disabilities Education Act (IDEA). Such students are protected from discrimination and entitled to a "free appropriate public education.

All responsible public agencies are required to locate, evaluate and identify children with disabilities who are under the jurisdiction of the agency, regardless of the severity of the disability, including children attending private schools, highly mobile children, such as migrant and homeless children, and children who are suspected of having a disability and in need of special education even though they are advancing from grade to grade.

The Riverview Gardens School District, in partnership with the Special School District of St. Louis County, assures that it will provide a free, appropriate public education (FAPE) to all eligible children with disabilities between the ages of 3 and 21 under its jurisdiction. Disabilities include autism, deaf/blindness, emotional disorders, hearing impairment and deafness, mental retardation, multiple disabilities, orthopedic impairment, other health impairments, special learning disabilities, speech or language impairment, traumatic brain injury, visual impairments/blindness and any child with a developmental delay.

The Riverview Gardens School District, in partnership with the Special School District of St. Louis County assures that it will provide information and referral services necessary to assist the State in the implementation of early intervention services for infants and toddlers eligible for the Missouri's First Steps Program.

The Riverview Gardens School District, in partnership with the Special School District of St. Louis County, assures that personally identifiable information collected, used, or maintained by the agency for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The Special School District of St. Louis County has developed a Local Compliance plan for implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This Plan contains the agency's

policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with General Education Provision (GEPA). This plan is available for public review during regular school hours on days school is in session in the Office of the Superintendent of Schools or Office of Director of Special School District at (314) 869-2505, ext. 1426.

Local school districts in the State of Missouri are required to conduct an annual census of all children with disabilities or suspected disabilities from birth to age twenty-one (21) that reside in the district. This census must be compiled by December 1 of each year. This information is treated as confidential and must include: name of the child; parent/legal guardian's name/address; birth date and age of the child; the child's disability; and the services provided to the child. If you have a child with a disability or know of a child with a disability that is not attending the public school, please contact Director of Special Education at (314) 869-2505 ext. 1426 or the Special School District of St. Louis County at (314) 989-8100.

This notice will be provided in native languages as appropriate.

ANNUAL NOTIFICATION REGARDING STUDENT RECORDS

The protection of student rights has always been a top priority of the Riverview Gardens School District. This document is distributed annually to all parents and students in order to comply with state and federal requirements to notify the parents/guardians and eligible students of their rights with respect to the student's educational records.

In general, a student's educational record includes any information maintained by the school district, which contains information directly related to a student. A major exception would be a personal record kept by a staff member if it is kept in the sole possession of the maker of the record and is not accessible or revealed to any other person except a temporary substitute for the maker of the record.

The Family Educational Rights and Privacy Act (FERPA) affords to parents/guardians (parents) of students, and to students themselves who are over 18 years of age (eligible students), certain rights with respect to the student's education records maintained by Riverview Gardens School District (District). These rights are outlined below:

1. The right to inspect and review the student's education records within 45 days of the day the District receives a written request for access. Parents or eligible students should submit to the school principal a written request that identifies, as precisely as possible, the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The rights to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the District to amend a record should write the principal or appropriate official, clearly identify the part of the record they want changed and specify why it should be changed. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to privacy of personally identifiable information contained in the student's education record except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the District's Board; a person or company with whom the District has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility for the District. The Voluntary Inter-District Choice Corporation (VICC) and its officers, employees, and agents are also school officials with legitimate educational interests because they act for and on behalf of the District with respect to transfer students and the transfer program, and because they seek to advance the interests of both. A transfer student's attendance records and other educational records relevant to the student's participation in the program or to the program itself may accordingly be disclosed to VICC without obtaining written consent from the parent/guardian or eligible student. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-8520.
5. The District may disclose appropriately designated “directory information” without written consent unless the parent or eligible student has advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from the student's education records in certain school publications. Examples include: a playbill, showing the student's role in a drama production; the annual yearbook; honor roll or other recognition lists; graduation programs; and sports activity sheets, such as for wrestling, showing weight and height of team members. Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent or eligible student's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent. Such information is also considered a "public record" which must be released upon demand to any person who requests it, under the Missouri Sunshine Law.

If a parent, guardian, or eligible student does not want the District to disclose directory information from a student's education records without their prior written consent, they must notify the District in writing within 10 days of receiving this notification. The District has designated the following information as directory information: Student's name, address, telephone listing, electronic mail address, date and place of birth, grade level, major field of study, enrollment status, participation in officially recognized activities and sports, photographs, weight and height of members of athletic teams, dates of attendance, degrees, honors, awards received, most recent educational agency or institution attended.

Anyone having questions regarding school policy relating to student disciplinary records is welcome to contact the Riverview Gardens School District Superintendent at: 1370 Northumberland Dr., St. Louis, MO 63137-1413 or by phone at (314) 869-2505.
