The first order of business was the discussion of the transition of the BST (Better Seeking Team) to SALT (Student Achievement and Leadership Team). This team will look at student achievement and plan for instruction at our school to make sure we are meeting the standards set by our state and county. The leadership team leads the redelivery of training to restructure our current Professional Learning Communities. They have worked on priority standards for each subject for all grades. Currently, the team is redelivering the priority standards for each subject and organizing lessons to meet those standards.

Dr. Greene shared information regarding the Guided Reading Workshop that was held for parents on 12/6/17. The workshop was led by ELA experts, and it gave parents a better understanding of the curriculum and how to help their students master the ELA standards.

Dr. Greene brought up a request from several parents. The parents are requesting a digit sign for the street so that more information can be presented as well as a need to increase our usage of technology. Also, the parents believe that it will be easier to see at night as well.
