

You've been quarantined!

What's next?

Make sure you take everything out of your locker you may need at home.

1. As soon as you leave school, email each teacher and let him/her know you have been quarantined. Remember to also email your homeroom teacher.
2. During your scheduled class time, you will log into your Google Classroom. Click on the course title and you will see the **MEET LINK**. This link can be found just below the name of the course.

3. Use the bell schedule below so you will know what time to log into each class. Keep in mind, it may take the classroom teacher 5 or 10 minutes to let you into the Google Meet. Remember the teacher is taking attendance and preparing for instruction to begin at the beginning of each class.
