

Air Force Junior Reserve Officer Training Corps (GA-20062) Addendum to Course Syllabi for Virtual Learners

2020-2021 School Year

As much as possible, virtual learners will participate with the Flight/Class they're assigned to per their schedule.

The **typical** flow of each week will be:

Monday – Drill

Tuesday – Physical Training (PT)

Wednesday – Uniform Inspection

Thursday – Academics

Friday – Academics

*****NOTE***** Instructors will deviate from this rhythm as needed. Cadets need to check their school email and the JROTC Google Classroom regularly to stay current on any changes/updates.

Instructors will make classroom observation/participation available via Zoom, Google Meet, or another appropriate App.

Virtual Learning Cadets are required to sign in and participate daily. Instructions for signing in to each class period will be provided through our Google Classroom.

On days when PT requires running for distance, Virtual Learning Cadets will run your neighborhood or a park, that is approved by your parents/guardians. You will use an App, such as Run Keeper to record your run, then submit a screenshot of the App in our Google Classroom.

On Wednesdays, Virtual Learning Cadets will dress in the required uniform, and will be graded by another cadet or Instructor via Zoom, Google Meet, or another App.

Virtual Learning Cadets are invited to participate in Co-curricular/Leadership Development Requirement (LDR) events such as Drill Team, Color Guard, CyberPatriot, Kitty Hawk Air Society, Academic Bowl Team, and Awareness Presentation Team (APT), **if allowed** by your parents/guardians.

All cadets must check their school email at least 3 times a day to stay informed. Also, check the JROTC Google Classroom, and the JROTC Website for updates as well.

Flexibility, determination, and a positive attitude will be keys to success.
