AMITE COUNTY SCHOOL DISTRICT STUDENT ACTIVITIES HANDBOOK

This Activities Handbook is designed to inform students who participate in extra-curricular activities and their parents of the rules, regulations and information that help to develop the rich tradition of competition in Amite County Athletics and Activities.

Participation in activities is a privilege which carries with its varying degrees of honor, respect, responsibility and tremendous sacrifice from parents and students. Since competition is a privilege and not a right, those who choose to participate will be expected to follow the rules established by the MHSAA, Amite County School District, the Athletic Department and the coaches. Each student-athlete represents his/her school and student body. It is the student-athlete's duty to conduct himself/herself in a manner appropriate for the student-athlete, his/her family, Amite County School District and the community. While an attempt has been made to answer as many questions as possible and to provide information on all aspects of activities/athletic participation, it is possible that you may have some questions that are not answered here. Please contact the principal and/or the athletic director for such information.

The Athletic Department will enforce all rules and regulations as described in this Activities Handbook. Parents and students are asked to sign an acknowledgement document located at the end of this handbook stating that they have read and understand the information included in the handbook and that the athlete is subject to disciplinary measures should he/she violates the rules and regulations set forth in this handbook.

MISSION STATEMENT

Our mission is to provide an opportunity for student-athletes to obtain global skills beyond their respective activities or the athletic arena as they excel and achieve social standards, increase academic awareness and performance, and learn self-discipline, teamwork, sportsmanship, and good character as they participate in a variety of competitive, organized activities.

SPORTSMANSHIP

The following policy statement from the National Federation of State High School Associations expresses the concept of sportsmanship as follows:

“The ideals of good sportsmanship, ethical behavior, and integrity permeate our culture. The values of good citizenship and high behavioral standards apply equally to all activity disciplines. In perception and practice, good sportsmanship shall be defined as those qualities of behavior which are characterized by generosity and genuine concern for others. Further, awareness is expected of the impact of an individual's

influence on the behavior of others. Good sportsmanship is viewed as a concrete measure of the understanding and commitment to fair play, ethical behavior and integrity.”

One of the main goals of the activities program is to teach the concept of sportsmanship. Good sportsmanship requires that everyone is treated with respect. This includes members of the opposing team, officials, coaches and spectators. Good sportsmanship includes showing courtesy and kindness towards your opponent as well as fellow team members. The contest is judged by the efforts of the participants. Winning is exciting but winning at any cost is not the goal. Negative treatment of any participant is contrary to the spirit and interest of the contest.

MISSISSIPPI HIGH SCHOOL ACTIVITIES ASSOCIATION ELIGIBILITY REQUIREMENT

Weight training and conditioning programs are exempt from this restriction. During the summer months (from the end of school until the fall sports practice date), mandatory practice is prohibited and games between schools are prohibited.
17. You may not dress in uniform for an athletic contest or sit on the bench in game uniform or be on the field or count as a player if you are not eligible to participate in the game or event.

AMITE COUNTY SCHOOL DISTRICT’S ELIGIBILITY

Students must display qualities of good citizenship if they wish to participate in extracurricular activities. A student-athlete is one who performs above and beyond the regular expectations of students. A student-athlete carries himself/herself with a strong sense of PRIDE, DIGNITY, INTEGRITY, HONESTY, DISCIPLINE, CLASS, and RESPECT. A student-athlete is not a follower. He or she is a LEADER! A student-athlete does not contradict the positive expectations of his/her educational leaders. A student-athlete is determined to beat and defy the odds by becoming a scholar and a leader. Failure to adhere to be a good citizen and student/athlete at all times may result in probation and/or suspension from all extracurricular activities. The Mississippi High School Activities Association’s Constitution states: Any pupil who is under temporary suspension or whose character or conduct is such as to reflect discredit upon the school is not eligible. Any student who is suspended (ISS or OSS) cannot participate in any extracurricular activities (including practices, try-outs, etc.) while they are suspended. A student-athlete’s attendance, attitude and academics must be acceptable to the school in which he/she is enrolled. Remember, a student-athlete is a STUDENT first and an ATHLETE second.

ACADEMIC ELIGIBILITY

1. A high school student must maintain a minimum composite numerical 70 average or a 2.0 grade point average in four (4) core courses, plus two (2) electives each nine-weeks grading period. A student who fails to meet the minimum requirement or has an “F” in any one subject will be placed on probation until the next nine-weeks grading period. A student with 2 or more “F’s” will be suspended from participating in extracurricular activities.
 - A middle school student must maintain a minimum 70 average or a 2.0 grade point average in four core courses plus an elective for each nine-weeks grading period. A middle school student who has an “F” during any grading period is not eligible to participate in extracurricular activities. A student who fails to meet the minimum requirement for any nine-weeks grading period will be placed on probation until the next nine-weeks grading period.

- If, at the end of this probationary period, the high school or middle school student fails to meet the minimum requirements, he/she will be suspended from participation for the next nine-weeks grading period. At the end of the suspension, the student will be reinstated if he/she meets the minimum requirements.
 - Suspensions or reinstatements will occur five (5) days after progress reports or report cards are issued.
 - **Make-up work completed after the issuance of progress reports or report cards will not be considered for changing eligibility.**
2. During the probationary period, a weekly progress report from the student’s teachers will be required to determine athletic eligibility upon receiving the mid-term progress report or report card.
 3. Severe academic problems may result in long-term suspension from extracurricular participation. Such suspensions may prevent a student from trying out for a sport/activity.

MHSAA ACADEMIC ELIGIBILITY

The MHSAA requires students participating in MHSAA sanctioned competition to make “satisfactory progress towards graduation”. Each school district shall determine the requirements for “satisfactory progress towards graduation” through its graduation requirements and shall interpret this rule according to its requirements.

According to Mississippi Law, a student must maintain a grade point average of at least a 2.0 or “C” average in order to participate in interscholastic sports/activities. Grade point averages will be calculated at the conclusion of the first semester using the semester averages of all courses the student is taking. Students who do not have a 2.0 or “C” average for the first semester will be ineligible for the second semester.

At the end of the school year, each student’s grade point average for the year will be assessed. This assessment will reflect the average for the entire year using the final grades for each course. A student who does not have a grade point average of at least a 2.0 or “C” average will be ineligible for the fall semester.

High school eligibility begins when a student enters ninth grade. To be eligible for the fall semester, a student must be promoted to ninth grade with at least an overall 2.0 or “C” average for all eighth grade courses.

A student may become eligible for the second semester only once during his/her high school career if he/she fails the year-end average the previous year, by achieving at least an overall 2.0 or “C” average at the end of the first semester.

A 2.0 or “C” average may be calculated in two ways:

1. Grade point average: A=4, B=3, C=2, D=1, F=0
2. Numerical average: Place all semester or year-end averages in the local grading scale. If the overall average is “C” or better, the student is eligible.

JUNIOR HIGH/MIDDLE SCHOOL SCHOLASTIC REQUIREMENT

For participation on the junior high/middle school level, a student must be promoted (if not promoted, they are ineligible for the entire year) having passed the four core courses (English, math, science and social studies), and the average of those four core courses must be a “C” or above. For spring semester eligibility, the student does not have to be passing all four core courses but the average of those four core courses must be a “C” or above.

Students who are allowed to participate on a high school team in any sport/activity shall not be allowed to participate on a junior high school team in the same sport/activity at the same time or at a later date.

SPECIAL EDUCATION REQUIREMENTS

Special Education students making satisfactory progress, according to the committees reviewing their Individual Education Plans (IEP) shall be academically eligible. Special education student must maintain attendance according to district policy, be assigned a date entering ninth grade corresponding to other students of that age and be subject to all other rules and regulations of MHSAA.

SUMMER SCHOOL CREDITS

Credits/Carnegie units earned by a student in an accredited summer school shall be considered in determining his/her scholastic eligibility. Only one credit per year may be used for eligibility. Course must be completed and recorded in the counselors’ office on or before the first day of the school year.

CREDIT RECOVERY AND/OR CORRESPONDENCE COURSES

Credit recovery courses and accredited correspondence courses may be accepted in determining eligibility provided the course has been completed and recorded prior to the first day of the following year/semester.

UNDUE HARDSHIP CASES

The Executive Committee shall have authority to set aside the effect of any eligibility rule except the age limit upon an individual student when, in its opinion, the rule works an undue hardship upon that student.

- a. Serious injury or prolonged illness supported by a doctor’s records, or other conditions which are beyond the control of the student and his/her parents/guardian, that cause the student to miss school for a prolonged period of time may be considered valid reasons for requesting an undue hardship case.
- b. It is understood that ordinary cases of ineligibility shall not be considered as coming under the hardship category. In ability to participate due to illness, injury or other medical caused shall not be considered a hardship. The fact that a student fails to pass the required number of courses, withdraws

from school, is retained or repeats his/her schoolwork is not sufficient grounds for a favorable decision on an undue hardship case.

c. The appropriate time for hardship application is when the hardship is discovered, not after he/she has completed four consecutive years.

PROCEDURE: The Executive Committee shall meet several times a year to consider requests to have the rules set aside for the benefit of individual students and shall consider such requests at the two meetings held for that purpose.

- a. The executive director shall rule on cases of eligibility prior to submitting the undue hardship case to the executive committee.
- b. Each application must be made in writing by the school principal, with the approval of the superintendent at least thirty (30) days prior to the meeting and should contain all of the facts pertaining to the case, including sufficient data to make it possible to reach a decision without further investigation. Copies of all correspondence and documents pertinent to the case must be sent to the president, each executive committee member and four (4) copies to the MHSAA state office, including a photo static copy of the student's cumulative folder which shows all scholastic and attendance data since entry in the ninth grade. In cases involving medical questions, the request for exception must be accompanied by the statement(s) of one or more qualified medical expert(s) explaining the medical aspect of the cases.
- c. A personal appearance of the principal and/or superintendent before the executive committee may be requested.
- d. A school check in the amount of \$100.00, non-refundable, for each case requested must accompany each request.
- e. Each school will be given five (5) minutes to present any verbal information concerning their case. The principal will designate who will speak and how many but cannot exceed the time limit.
- f. The decision of the executive committee to set aside the effects of the rule in each individual case shall be by majority vote.
- g. The executive director shall notify the school, in writing, of the decision.

The criteria prohibit the retention of students for extracurricular purposes.

Date of birth and birth certificate number shall be listed on the eligibility list along with other information the first time a student's name is submitted to the state office.

SUSPENSION FROM SCHOOL

- 1st suspension from school: Miss one game and participate in severe disciplinary activities after Practice for one week.
- 2nd suspension from school: Miss two games and participate in severe disciplinary activities after practice for two weeks..
- 3rd suspension from school: Suspended from the team.

OTHER OFFENSES

- 1st offense towards a coach: A conference with coach and parents. Miss one or more games/activities depending on the severity of the offense
- 2nd offense towards a coach: Suspended from the team.
**Profanity towards a coach will automatically result in the student-athlete's suspension from the team.

Depending on the severity of the student-athlete's first referral, first suspension, or first offense towards a coach, a student-athlete may automatically be suspended from the team.

Any student-athlete who participates in a fight on a school campus, school property including a school bus or at a school-related event, including games and other activities are subject to being expelled from the team.

Any student-athlete who violates any school rule or procedure must have his/her teachers and a principal complete a weekly behavioral form. This form will be designed to help the student-athlete's coach keep track of his/her behavior in class and out of class.

All student-athletes entering the 12th grade MUST have taken the ACT at least once before he/she can participate in extracurricular activities. Please see a guidance counselor for more information and instructions.

****SUSPENSION REFERS TO OUT-OF-SCHOOL SUSPENSION AND IN-SCHOOL SUSPENSION****

BEHAVIORAL REQUIREMENTS FOR PARENTS AND SPECTATORS

According to the Mississippi High School Activities Association, home teams are responsible for the conduct of fans.

1. If a parent or spectator uses profanity towards a player or coach, that parent will be suspended from all athletic events.
2. If a parent or spectator starts a quarrel or fight with another parent or spectator(s), all participants will be escorted from the game/activity and suspended from all athletic events for the remainder of the school year.

ATTENDANCE ELIGIBILITY

Daily attendance at school and practice is expected.

1. In order for a student-athlete to be eligible to participate in any after-school activity, he/she must be present in school the **ENTIRE** day before the activity and the **ENTIRE** day of the activity.
2. He/she must attend **ALL** scheduled practices (**ONLY IF A STUDENT HAS BEEN PRESENT THE ENTIRE SCHOOL DAY**).
3. If a student-athlete misses practice the day before a game, he/she will not participate in the game.
4. If a student-athlete has to miss practice, it is the student-athlete's responsibility to notify his/her coach at least an hour before practice begins. If he/she waits until practice begins, his/her reason for missing practice will not be accepted.
5. A student-athlete is granted one unexcused absence for the entire season. If a student-athlete has more than one unexcused absence, he/she will be subject to removal from the team.
6. A student-athlete who accumulates an excessive number of absences and tardies, as designated in the district's student handbook, will be placed on probation for a specified period of time.
7. If the attendance/tardy violations continue, the student-athlete will be suspended from athletic participation until it is clear that the attendance problem has been resolved.
8. Excused absences are the absences that will excuse the student-athlete from missing school.
9. A student who is absent from school should not come on campus. No student, if absent from school that day, unless previously approved by the principal, will be permitted to take part in any school-sponsored extracurricular practice, rehearsal, program or event. A student who is suspended (in-school or out-of-school) is not permitted to take part in any school-sponsored extracurricular activity. (As stated in the Amite County Student Handbook.)

OFF CAMPUS CODE OF CONDUCT

Consequences for off campus violations of the code of conduct will not be based on hearsay or rumor. When there is suspicion (a belief or opinion based on facts or circumstances) or when there is an admission of guilt by the athlete to a violation of the Athletic Code of Conduct, the Athletic Handbook rules will be enforced. Penalties for violations take effect immediately upon determination of any violation and will include games in succession: i.e., season schedule, tournaments, and state series, in order of competition. If a violation occurs in the last one-third (1/3) of the sport's season, the student-athlete will not be considered in good standing and will therefore, forfeit all letters and awards for that sport's season. If a violation of the code of conduct occurs in the last portion of a season, and the violator cannot fulfill the terms of his/her consequences in that season, the suspension will carry-over until the suspension is fulfilled. This includes his/her next sport of the same school year, i.e., if the suspension is administered for two football games with only one game remaining and the student also participates in basketball, the student will miss the first basketball game before the suspension can be lifted. If a typically one-sport student-athlete elects to participate in a new sport in order to serve a suspension, he/she will be required to complete that season in good standing. When serving a school suspension (including ISS or OSS), the student-athlete will be ineligible for all contests during the suspension period. Attendance at athletic events, whether a participant or spectator, and at practice is prohibited during the suspension period. If school rules are broken, the student-athlete will be subject to normal punishment for such misbehavior as well as subject to penalties in the Athletic Handbook. In no case will athletic rules circumvent or take the place of school rules.

INSURANCE

All students who participate in athletics in the Amite County School District are required to have medical insurance and must supply information verifying such before participating in practice and/or competition.

PARTICIPATING IN TWO SPORTS IN ONE SEASON

Student-athletes may participate in more than one sport during one season with approval of both coaches. Practice schedules will be worked out between the coaches. Consideration will be given to the importance of the sport (example: varsity versus non-varsity, play-offs versus regular season, game versus practice, district game versus non-district game). If contests conflict, the coaches will decide which contest the student-athlete will participate. The student-athlete must realize that extra time for practice is necessary to compete in two sports in one season. The student-athlete must meet the requirements of both sports. If the requirements of one or both sports are not met, the student-athlete will be cut from the sport.

In a case whereby co-curricular versus athletics, first priority will be given to the area in which the student earns a grade unless a written agreement is signed by the coaches/directors/sponsors involved and the student's parent(s).

Team Tryouts Policy

Each coach of varsity sports has his/her own policy on how he/she will choose his/her team. However, in order to be eligible to try-out for any extracurricular activity, the student must meet the following requirements:

1. 2.0 or higher GPA
2. Only one referral
3. No unexcused absence
4. Updated physical examination
5. Health insurance
6. Parental Release Form with a parent/guardian's signature
7. Evaluation form must be completed by every teacher, principal, and past coach (if student participated in a sport prior to tryouts).

Training/Weight Room

The training room is available to all athletes who have an updated physical on file. Athletes are offered a wide variety of services to help meet the demands of athletic competition. The weight-room at Amite County School will be open from 4:00 – 6:00 PM on Monday through Thursday (It will not be open on Friday). Students must be supervised by an authorized coach at all times. The following guidelines must be followed when using the training/weight room.

Student Drug-Testing Program Extracurricular Activities	JCDAB	

Introduction

This policy addresses students who participate in competitive extracurricular activities in Grades 7-12; it does not address the issue of drug or alcohol possession, which is addressed elsewhere in district policy. Students, who participate in competitive extracurricular activities, as role model to other students, are a key to the school district's goal of providing the best possible educational program for all students. To achieve this goal, and to maximize the skills and talents of students, it is important that every student, employee, and parent understand the dangers of drug and alcohol abuse. This policy statement clarifies the school district's position on student drug and alcohol use. The Board, however, reserves the right to depart from these policies and procedures developed thereto where it deems such is appropriate.

The incidence of substance abuse by students who participate in competitive extracurricular activity may be relatively small. Practical experience and research indicate that appropriate precautions are necessary. It is the belief of the Board that the benefits derived from the policy objectives outweigh the potential inconvenience to students. The Board solicits the understanding, cooperation, and support of all students and parents in implementing this policy.

Policy Objectives

The purposes of this policy are to:

1. Create and maintain a safe, drug-free environment for all students by educating students about the serious physical, mental, and emotional harm caused by illegal drug use.
2. Offer students the privilege of competition and participation in extracurricular activities as an incentive not to use or stop using illegal drugs.
3. Remove the influence of peer pressure from students who participate in extracurricular activities to abuse drugs
4. Provide opportunities for treatment and counseling rehabilitation for students who participate in competitive extracurricular activities who have been identified as abusing drugs.
5. Reduce the likelihood of accidental personal injury or damage to property.

Policy

The school district recognized that drug and alcohol abuse present special concerns about the dangerous combination by students participating in extra-curricular activities. While the abuse of alcohol, illegal drugs, prescription and even non-prescription drugs is unsafe for any student, the physical demands placed upon activity students in practice and competition makes such abuse dangerous. The activity student's use of drugs or alcohol increases the risk of activity-related injuries by impaired judgment, coordination, and reaction.

The school district hereby implements a drug testing policy designed to provide early detection of drug use and to eradicate or reduce significantly the use and the influence of prohibited drugs, and other chemicals by students participating in competitive extra-curricular activities.

Applicability

All students, grade 7-12, who participate in any school-sponsored competitive extracurricular activity shall be subject to drug testing to the extent and manner provided for in this policy.

This policy and any other drug and alcohol screening policies adopted and approved by the Board shall be administered separately and concurrently. The results under this policy may be considered for the purpose of competitive extracurricular activity eligibility and for testing or monitoring. Activity students are subject to both this policy and all other school district drug and alcohol screening policies.

The random testing shall not be announced or revealed prior to the time commencement and shall be conducted on a no-notice, surprise basis. The protocol for collecting and testing of breath, urine, saliva, and hair specimens or steroid use shall follow, as appropriate, the process of 49 CFR Part 40, as amended, *the Omnibus Transportation Employee Testing Act of 1991*.

The specimen test collecting agency shall conduct all aspects of the drug testing to safeguard the student’s personal and privacy rights to the maximum degree practicable. The test specimen shall be obtained in a manner designed to

minimize intrusiveness to the student. If at any time during the sampling procedure, the agency employees has reason to suspect that a student has tampered with the specimen, the procedure may be stopped and determination made if a new sample should be obtained.

The collection procedure shall maintain a trail of evidence and chain-of-custody for each specimen sample. A tamper-proof sealing system, with identifying numbers and labels, will be used for collecting, transporting the testing laboratory, and analyzing the specimen.

Positive Drug and/or Alcohol Test Result Consequences

If the initial test for drugs indicates a negative result, no further testing during this particular random sampling will occur unless there is good reason to suspect the quality of the specimen sample. If the initial test indicates a positive result, a confirmation test will be conducted by a federally approved, independent laboratory. The laboratory will transmit written results of all confirmed positive test to the medical review officer (MRO). The MRO will be responsible for reviewing test results and confirming the results of the drug test, including the effect of prescription or over-the-counter medication which may provide a false positive result.

The MRO shall promptly notify the principal which students test positive for drugs, adulterants, or a substituted specimen. The principal of the school will schedule a conference between the student, parent/guardian, and the school to discuss the test results.

Any student who test positive in a confirmative substance test will be subject to discipline up to and including immediate suspension from all competitive student activities. Any student's specimen that is found by the collection site, laboratory, or MRO to have been altered or substituted will be considered equivalent to a positive test.

Violations for using illegal drugs that can be detected by a drug test will result in the following penalties shall be administered.

- First Violation

Upon the first violation, the student shall be suspended from all competitive extracurricular activities for a minimum of two weeks. If the positive test occurs during the off-season, the student must submit results of a negative test prior to being allowed to participate in the activity when it resumes.

The student shall be required to undergo counseling, which, as a minimum, consists of five (5) sessions over a two-week period. A school counseling staff member will provide counseling services.

If the parent prefers a non-school agency for counseling the parent will be responsible for paying the counseling agency and shall have the agency furnish an appropriate report to the school.

- Second Violation

Upon the second violation, the student will be suspended from all competitive extracurricular activity for the remainder of the school year in which the violation occurs. The duration of the suspension shall be for a minimum of eight weeks and shall carry over to the ensuing school year, if necessary, thereby precluding the student from participating in any other event or activity during the eight-week minimum suspension period.

Before being able to participate in any school-sponsored competitive extracurricular activity, the student (i) shall be tested negative for prohibited drug use, and (ii) shall have undergone mandatory counseling with a school counselor, which, as a minimum, shall consist of ten (10) sessions over the eight week minimum suspension period.

If the parent prefers a non-school agency for counseling, the parent will be responsible for paying the counseling agency and shall have the agency furnish an appropriate report to the school.

- **Third Violation**

Upon the third violation, the student will be suspended from participating in all competitive extracurricular activity for a full calendar year.

Before being able to participate in any school-sponsored competitive extracurricular activity, the student (i) shall test negative for prohibited drug use, and (ii) shall have undergone mandatory counseling with a school counselor, which, as a minimum, shall consist of twenty (20) sessions during the period of suspension from the activity.

2. As requested to a covered student decision maker in a lawsuit, grievance, or other proceeding initiated by or on behalf of the individual.
3. As mandated by the court(s).

Notice

Before implementation of this policy, reasonable notice of the policy will be made to all students and the parent/guardian of students.

Enforcement

This policy shall become operative upon approval of the Board.

Implementation

The superintendent is authorized to prepare any administrative regulations and procedures for implementation of this policy. Furthermore, the superintendent is directed to provide a report annually to the Board regarding implementation of this policy.
