

Pre-K4 is studying a Building Unit and loving it! The students are creating, developing, and exploring everything that has to do with buildings. We started out, clipboard in hand to sketch the school with the help of our 7th grade buddies. The students have been brainstorming ideas about how to build a block building as tall as they are without it falling over.

They have learned how many stories tall buildings are, how the foundation needs to support

a building and how a building has to be made out of sturdy materials to keep from falling over. We will be ending the unit with the students creating a building of their choice out of recycled materials and hosting a building museum for the older grades to visit. *Submitted by Julie Pollock PK4 teacher*

MISSION STATEMENT

St. Stephen Catholic School is devoted to inspiring students to achieve their full academic potential while demonstrating a desire to continue Jesus' mission by applying Catholic morals, beliefs, values and practices in their everyday lives. We are committed to motivating students to sustain a lifelong love of learning.
